Guidelines For The Treatment Of Alcohol And Other Drug Abusing Adolescents A Treatment Improvement Protocol:

Treatment Improvement Protocol (TIP) Series ,1993 Guidelines for the Treatment of Alcohol-- and Other Drug-abusing Adolescents S. Kenneth Schonberg,Center for Substance Abuse Treatment (U.S.),1993 **Combining Alcohol and Other Drug Abuse Treatment with Diversion for Juveniles in the Justice System** ,2007 **Federal Regulation of Methadone Treatment** Committee on Federal Regulation of Methadone Treatment,Institute of Medicine,1995-02-01 For nearly three decades methadone hydrochloride has been the primary means of treating opiate addiction Today about 115 000 people receive such treatment and thousands more have benefited from it in the past Even though methadone s effectiveness has been well established its use remains controversial a fact reflected by the extensive regulation of its manufacturing labeling distribution and use The Food and Drug Administration regulates the safety and effectiveness of methadone as it does for all drugs and the Drug Enforcement Administration regulates it as a controlled substance However methadone is also subjected to a unique additional tier of regulation that prescribes how and under what circumstances it may be used to treat opiate addiction Federal Regulation of Methadone Treatment examines current Department of Health and Human Services standards for narcotic addiction treatment and the regulation of methadone treatment programs pursuant to those standards The book includes an evaluation of the effect of federal regulations on the provision of methadone treatment services and an exploration of options for modifying the regulations to allow optimal clinical practice The volume also includes an assessment of alternatives to the existing regulations **Treatments of Adolescents with Substance Use Disorders** Ken C. Winters,2000 Adolescents differ from adults both physiologically emotionally as they make the transition from child to adult thus require treatment adapted to their needs This report details the scope complexity of the problem Presents factors to be considered when making treatment decisions Discusses successful program components Describes the treatment approaches used in 12 Step based programs therapeutic communities family therapy respectively Discusses adolescents with distinctive treatment needs such as those involved with the juvenile justice system Explains legal issues concerning confidentiality laws *Comprehensive Case Management for Substance Abuse Treatment* Sandra Clunies,2000-09 A Treatment Improvement Protocol on case management which can be described as a coordinated approach to the delivery of health substance abuse mental health social services linking clients with appropriate services to address specific needs achieve stated goals Case management lends itself to the treatment of substance abuse particularly for clients with other disorders conditions who require multiple services over extended periods of time who face difficulty in gaining access to those services This report details the factors that programs should consider as they decide to implement case management or modify their current case management activities *A Guide to Substance Abuse Services for Primary Care Clinicians* Eleanor J. Sullivan,1997 **Treatment of Adolescents with Substance Use Disorders** ,1999

EXECUTIVE SUMMARY AND RECOMMENDATIONS This document Treatment of Adolescents With Substance Use Disorders is a revision and update of Treatment Improvement Protocol TIP 4 published in 1993 by the Center for Substance Abuse Treatment CSAT of the Substance Abuse and Mental Health Services Administration SAMHSA Like TIP 4 this document aims to help treatment providers design and deliver better services to adolescent clients with substance use disorders In 1992 CSAT convened a Consensus Panel of experts on adolescent substance use disorder treatment to produce guidelines for treatment programs on designing and delivering effective services to adolescent clients The clients addressed in the TIP included among others young people involved with the juvenile and criminal justice systems CSAT also intended for the Panel s guidelines to help governmental agencies and treatment providers establish fund operate monitor and evaluate treatment programs for substance using adolescents The result of that Panel s work was TIP 4 Guidelines for the Treatment of Alcohol and Other Drug Abusing Adolescents In July 1997 CSAT convened a small Revision Panel to review TIP 4 The Panel recommended changes and developed content for this revised TIP Since the publication of TIP 4 the understanding of substance use disorders and its treatment among adolescents has advanced More is known today about the immediate and long term physiologic behavioral and social consequences of use abuse and dependency New research attention has begun to examine the effectiveness of various treatment methods and components that meet the specific treatment needs of substance using adolescents and this literature is reviewed However the literature is small Fortunately a large multisite national study on the effectiveness of treatment for adolescent substance users is underway with funds from the National Institute on Drug Abuse CSAT is also conducting studies on adolescents focusing on marijuana treatment diversion programs in the juvenile justice system JJS and exemplary treatment programs The field will likely mature greatly by the knowledge advanced from these studies The structure of the earlier TIP of separate inpatient and outpatient treatment chapters which represented a continuum of service intensity was viewed by the Revision Panel to be less central to treatment decisions than a continuum based on the severity of the substance use disorder This shift in focus better reflects clinical experience extant treatment research and the recent changes regarding reimbursement by health care payors for treatment However the Revision Panel retained a broad definition of treatment Treatment is defined in this TIP as those activities that might be undertaken to deal with problem s associated with substance involvement and with individuals manifesting a substance use disorder Although the Panel recognizes that primary or secondary prevention of substance use are included in expanded definitions of treatment the Panel limited the continuum of interventions to what is traditionally viewed as acute intervention rehabilitation and maintenance The elements of the continuum primarily reflect the treatment philosophies of providers with less emphasis on settings and modalities In addition to defining the treatment needs of adolescents and providing a full description of the use of the severity continuum the Revision Panel focused attention on three common types of treatment for adolescents today 12 Step based treatment treatment in the adolescent therapeutic community and family therapy The 12 Step model lies at

the heart of many adolescent treatment programs Therapeutic communities TCs are an intensive type of residential treatment that is attracting attention as a preferred approach for substance using juveniles incarcerated in the justice system Clinicians have found that effective treatment of the adolescent almost always involves the family and the effectiveness of family therapy has been documented extensively particularly among those substance using adolescents who are normally the most difficult to treat This revision of the earlier TIP then offers guidelines for using the severity continuum to make treatment decisions and for providing three common models of treatment for adolescents with substance use disorders Recommendations of the Revision Panel supported by extensive clinical experience and the literature are summarized below The organization of this TIP reflects the core facets of initiating engaging and maintaining the change process for youths with substance use disorders Chapter 1 details the scope and complexity of the problem Chapter 2 covers factors considered in making treatment decisions and Chapter 3 details the features of successful programs Chapters 4 5 and 6 introduce and describe the treatment approaches used in 12 Step based treatment therapeutic communities and family therapy respectively Chapter 7 discusses adolescents with distinctive treatment needs such as youths involved in the juvenile justice system homeless and runaway youth and youth with coexisting disorders Chapter 8 describes the legal and ethical issues that relate to diagnosis and treatment of adolescents This new TIP derives from CSAT s intention to provide protocols that reflect the work now being done by providers of high quality treatment As with other TIPs this document brings the best knowledge from the field to State and local treatment programs In order to avoid awkward construction and sexism this TIP alternates between he and she for generic examples The companion document TIP 31 Screening and Assessing Adolescents for Substance Use Disorders a revision of TIP 3 has also been published CSAT 1999 *Comprehensive Case Management for Substance Abuse Treatment - TIP 27* U.S. Department of Health And Human Services,2019-11-22 Case management has been variously classified as a skill group a core function service coordination or a network of friendly neighbors Although it defies precise definition case management generally can be described as a coordinated approach to the delivery of health substance abuse mental health and social services linking clients with appropriate services to address specific needs and achieve stated goals The Consensus Panel that developed this TIP believes that case management lends itself to the treatment of substance abuse particularly for clients with other disorders and conditions who require multiple services over extended periods of time and who face difficulty in gaining access to those services This document details the factors that programs should consider as they decide to implement case management or modify their current case management activities This summary is excerpted from the main text in which references to the research appear *Clinical Supervision and Professional Development of the Substance Abuse Counselor* United States. Clinical Handbook of Adolescent Addiction Richard Rosner, 2012-11-19 Since 1960 the burden of adolescent illness has shifted from the traditional causes of disease to the more behavior related problems such as drinking smoking and drug abuse nearly half of American adolescents have used an illicit drug sometime during their life Instilling in adolescents the knowledge skills and values that foster physical and mental health will require substantial changes in the way health professionals work and the way they connect with families schools and community organizations At the same time the major textbooks on addiction medicine and addiction psychiatry devote relatively little attention to the special problems of diagnosing and treating adolescent addicts Similarly the major textbooks on general and child and adolescent psychiatry direct relatively little attention to the issues surrounding adolescent addiction The Clinical Handbook of Adolescent Addiction is one response to the challenge of meeting the mental health needs and behavior related problems of addicted teenagers The work has been edited as an independent project by members of the American Society for Adolescent Psychiatry the oldest professional organization of psychiatrists devoted solely to the mental health care and treatment of teenagers in the USA The forensic psychiatry perspective permeates the entire book It will help to produce health providers with a deep and sensitive understanding of the developmental needs and behavior related problems of adolescents The Clinical Handbook of Adolescent Addiction is a practical tool for all those who help adolescents practitioners of family medicine general psychiatrists child adolescent psychiatrists adolescent psychiatrists addiction psychiatrists non psychiatric physicians specializing in addiction medicine forensic psychiatrists psychologists clinical social workers mental health administrators Court Probation Parole Correctional health workers The book is organized in a user friendly format so that readers can easily locate the chapters that provide the information that is required In some instances topics of special importance deliberately have been addressed in more than one chapter to illuminate the topics from a variety of vantage points One aim of the editors is to move the topic from being a specialist area to a generalist one by providing tools for generalist to use

Adolescent Substance Abuse Howard A. Liddle, Cynthia L. Rowe, 2006-03-09 This book was first published in 2006 Adolescent drug abuse is one of the most challenging disorders to treat It impacts on schools community based programs mental health and medical facilities and juvenile justice settings This book provides practitioners program developers and policy makers with practical information for improving outcomes in adolescent substance abuse The authors cover a range of issues including empirically based treatment development protocols how to incorporate innovative treatment models into diverse clinical settings research advances interventions with special populations culturally based intervention guidelines

and recommendations for practice and policy Substance Abuse: Administrative Issues in Outpatient Treatment (TIP 46)
U.S. Department of Health and Human Services, 2019-11-23 The primary audience for this TIP is administrators of outpatient substance abuse treatment programs A few words about this audience are in order Whereas TIP 8 addressed intensive outpatient treatment the current TIP drops the word intensive from its title because the consensus panel hopes that this TIP will find an audience beyond administrators of IOT programs Most of the concepts and guidelines included in this TIP apply to the administration of all substance abuse outpatient treatment OT programs On those rare occasions when information applies only to IOT programs the authors have been sure to make this clear Although the term administrator is used most often to describe the audience for this book the terms executive and director appear as well and are used interchangeably with administrator These overlapping terms emphasize the varied roles and responsibilities that administrators assume
