Guilt Of Nations:

The Guilt of Nations Elazar Barkan, 2001-10-09 The author takes a sweeping look at the idea of restitution and its impact on the concept of human rights and the practice of politics She confronts the difficulties of determining victims and assigning blame The Guilt of Nations ,2002 THE GUILT OF NATIONS. ELAZAR BARKAN.,2022 **The Engaged Historian**

Stefan Berger, 2019-04-01 On the surface historical scholarship might seem thoroughly incompatible with political engagement the ideal historian many imagine is a disinterested observer focused exclusively on the past In truth however political action and historical research have been deeply intertwined for as long as the historical profession has existed In this insightful collection practicing historians analyze reflect on and share their experiences of this complex relationship From the influence of historical scholarship on world political leaders to the present day participation of researchers in post conflict societies and the Occupy movement these studies afford distinctive humane and stimulating views on historical practice and practitioners **Civilizational Dialogue and World Order** M. Michael, 2009-05-25 The book comes at a very critical moment in the debate on civilization and responds to the lack of scholarly attention by international relations and political theorists as to how the discourse of dialogue of cultures religions and civilizations can contribute to the future of world order *The SAGE Handbook of Historical Theory* Nancy Partner, Sarah Foot, 2012-12-18 The SAGE Handbook of Historical Theory introduces the foundations of modern historical theory and the applications of theory to a full range of sub fields of historical research bringing the reader as up to date as possible with continuing debates and current developments The book is divided into three key parts covering Part I Foundations The Theoretical Grounds for Knowledge of the Past Part II Applications Theory Intensive Areas in History Part III Coda Post Postmodernism Directions and Interrogations This important handbook brings together in one volume discussions of modernity empiricism deconstruction narrative and postmodernity in the continuing evolution of the historical discipline into our post postmodern era Chapters are written by leading academics from around the world and cover a wide array of specialized areas of the discipline including social history intellectual history gender memory psychoanalysis and cultural history The influence of major thinkers such as Jacques Derrida Michel Foucault and Hayden White is fully examined This handbook is an essential resource for practising historians and students of history and will appeal to scholars in related disciplines in the social sciences and humanities who seek a closer understanding of the theoretical foundations of history *Heirs of Oppression* Angelo J. Corlett, 2010-11-16 Packing his case with moral argument and relevant facts Angelo Corlett offers the most comprehensive defense to date in favor of reparations for African Americans and American Indians As Corlett see it the heirs of oppression are both the descendants of the oppressors and the descendants of their victims Corlett delves deeply into the philosophically related issues of collective responsibility forgiveness and apology and reparations as a human right in ways that no other book or article to date has done He recommends specific policies and tests the basic arguments of this book with a lengthy chapter considering several

objections to the line of reasoning grounding the project **Putin's Wars** Marcel H. Van Herpen, 2015-07-01 This fully updated book offers the first systematic analysis of Putin's three wars placing the Second Chechen War the war with Georgia of 2008 and the war with Ukraine of 2014-2015 in their broader historical context Drawing on extensive original Russian sources Marcel H Van Herpen analyzes in detail how Putin's wars were prepared and conducted and why they led to allegations of war crimes and genocide He shows how the conflicts functioned to consolidate and legitimate Putin's regime and explores how they were connected to a fourth hidden internal war waged by the Kremlin against the opposition The author convincingly argues that the Kremlin relying on the secret services the Orthodox Church the Kremlin youth Nashi and the rehabilitated Cossacks is preparing for an imperial revival most recently in the form of a Eurasian Union An essential book for understanding the dynamics of Putin's regime this study digs deep into the Kremlin's secret long term strategies Readable and clearly argued it makes a compelling case that Putin's regime emulates an established Russian paradigm in which empire building and despotic rule are mutually reinforcing As the first comprehensive exploration of the historical antecedents and political continuity of the Kremlin's contemporary policies Van Herpen's work will make a valuable contribution to the literature on post Soviet Russia and his arguments will stimulate a fascinating and vigorous debate

War and Compromise Between Nations and States Egbert Jahn, 2019-11-30 This volume investigates both violent conflicts and non violent conflict behavior It addresses a variety of topics including responsibility and guilt in connection with war violent conflicts and terrorist attacks conflict escalation in disputed areas such as the South China Sea Syria and Ukraine war as an instrument of the United States and Russia's global peace policy and the experiences with non violent conflict strategies in the Indian independence movement Furthermore it presents country studies on Switzerland and Catalonia Peaceful interethnic relations in multilingual states in Switzerland are examined and juxtaposed against independence movements such as in Catalonia Current political challenges faced by the European Union e.g. divergent refugee policies and the Brexit are also discussed *Justice* Michael J. Sandel, 2009-09-15 A renowned Harvard professor's brilliant sweeping inspiring account of the role of justice in our society and of the moral dilemmas we face as citizens What are our obligations to others as people in a free society Should government tax the rich to help the poor Is the free market fair Is it sometimes wrong to tell the truth Is killing sometimes morally required Is it possible or desirable to legislate morality Do individual rights and the common good conflict Michael J Sandel's Justice course is one of the most popular and influential at Harvard Up to a thousand students pack the campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day and this fall public television will air a series based on the course Justice offers readers the same exhilarating journey that captivates Harvard students This book is a searching lyrical exploration of the meaning of justice one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways Affirmative action same sex marriage physician assisted suicide abortion national service patriotism and dissent the moral

limits of markets Sandel dramatizes the challenge of thinking through these conflicts and shows how a surer grasp of philosophy can help us make sense of politics morality and our own convictions as well Justice is lively thought provoking and wise an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life

The Healing of Nations Mark R. Amstutz, 2005 How does one forgive an international political transgression as deep as genocide or apartheid Forgiveness is often conceived of as an element of personal morality and even at that it is difficult This book argues that it is also an essential part of political ethics especially when dealing with collective wrongdoing by political regimes In the past a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change Here Mark R Amstutz takes a restorative justice approach calling for nations to account for crimes through truth commissions public apology and repentance reparations and ultimately forgiveness and the lifting of deserved penalties The distinctive feature of forgiveness is the balance it strikes between backward looking accountability and forward looking reconciliation The Healing of Nations combines a theory of the role of forgiveness in public life with four key case studies that test this ethic Argentina Chile Northern Ireland and South Africa Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting

The Mortality and Morality of Nations Uriel Abulof, 2015-07-24 This book answers how mortality and morality figure and intertwine in the life and death of nations both in theory and in practice

Protestant Nations Redefined Pasi Ihalainen, 2005 This study in comparative conceptual history reveals how the concepts of nation and fatherland were redefined within public religion in eighteenth century England the Netherlands and Sweden leading to more positive and inclusive conceptions of nationhood and the gradual reconfiguration of national identities in more secular terms
