Guilty Victims Austria From The Holocaust To Haider:

Guilty Victim Hella Pick, 2000-07-28 *Guilty Victim* explores Austria's search for an internationally credible identity for itself after the Nazi era. But Hella Pick shows how the old ghosts will not go away. It is not just the saga of President Kurt Waldheim's Nazi past which has haunted Austria's graceful glide to rehabilitation and respectability. The spectacular success of Jörg Haider and his far right wing politics have raised grave worries inside and outside Austria. How will Haider's xenophobia and the dangers of revisionism towards the third Reich sit in the new Europe where Austria has gained a respected place? *Guilty Victim* provides sobering insights into one of the most troubling questions facing Europe today. **BOOK JACKET** *A History of Eastern Europe 1918 to the Present* Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism? *A History of Eastern Europe 1918 to the Present* shows how the roots of this difference are based in Eastern Europe's tortured 20th century. Eastern Europe emerged in 1918 as the lands between new states whose weakness vis-à-vis Germany and Soviet Russia soon became obvious. The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945. The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness. Even in the post-Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism. *A History of Eastern Europe 1918 to the Present* explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation; it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re-emerged more virulent than ever. This book is the essential textbook for any student of 20th century Eastern Europe.

The traumatic surreal Patricia Allmer, 2022-04-05 *The traumatic surreal* is the first major study to examine the groundbreaking role played by Germanophone women artists working in surrealist traditions in responding to the traumatic events and legacies of the Second World War. Analysing works in a variety of media by leading artists and writers, the book redefines the post-war trajectories of surrealism and recalibrates critical understandings of the movement's relations to historical trauma. Chapters address artworks, writings and compositions by the Swiss Meret Oppenheim, the German Unica Zürn, the Austrian Birgit Jrgensen, the Luxembourg Austrian Bady Minck and the Austrian Olga Neuwirth and her collaboration with fellow Austrian Nobel prize winning novelist Elfriede Jelinek. Locating each artist in their historical context, the book traces the development of the traumatic surreal through the wartime and post-war period. *Arnold Schoenberg's A Survivor from Warsaw in Postwar Europe* Joy H. Calico, 2014-03-15 Joy H. Calico examines the cultural history of postwar Europe through the lens of the performance and reception of Arnold Schoenberg's *A Survivor from Warsaw*, a short but powerful work she argues capable of irritating every exposed nerve in postwar Europe. Schoenberg, a Jewish composer whose oeuvre had been one of the Nazis' prime exemplars of entartete (degenerate) music, immigrated to the United States and became an American.

citizen Both admired and reviled as a pioneer of dodecaphony he wrote this twelve tone piece about the Holocaust in three languages for an American audience This book investigates the meanings attached to the work as it circulated through Europe during the early Cold War in a kind of symbolic musical remigration focusing on six case studies West Germany Austria Norway East Germany Poland and Czechoslovakia Each case is unique informed by individual geopolitical concerns but this analysis also reveals common themes in anxieties about musical modernism Holocaust memory and culpability the coexistence of Jews and former Nazis anti-Semitism dislocation and the presence of occupying forces on both sides of the Cold War divide

Russia and the Western Far Right Anton Shekhovtsov, 2017-09-08 The growing influence of Russia on the Western far right has been much discussed in the media recently This book is the first detailed inquiry into what has been a neglected but critically important trend the growing links between Russian actors and Western far right activists publicists ideologues and politicians The author uses a range of sources including interviews video footage leaked communications official statements and press coverage in order to discuss both historical and contemporary Russia in terms of its relationship with the Western far right Initial contacts between Russian political actors and Western far right activists were established in the early 1990s but these contacts were low profile As Moscow has become more anti Western these contacts have become more intense and have operated at a higher level The book shows that the Russian establishment was first interested in using the Western far right to legitimise Moscow's politics and actions both domestically and internationally but more recently Moscow has begun to support particular far right political forces to gain leverage on European politics and undermine the liberal democratic consensus in the West Contributing to ongoing scholarly debates about Russia's role in the world its strategies aimed at securing legitimisation of Putin's regime both internationally and domestically modern information warfare and propaganda far right politics and activism in the West this book draws on theories and methods from history political science area studies and media studies and will be of interest to students scholars activists and practitioners in these areas

Ethnicity and Everyday Life Christian Karner, 2007-05-07 Mixing theories of the everyday with a wide range of case studies this book explains the character of ethnicity from being a political tool of exclusion to a source of meaning and solidarity and the relationship between culture power and identity Combining theories of the everyday with empirical case studies this book examines the dual character of ethnicity as a political tool of exclusion and source of meaning solidarity respectively the relationship between culture power and identity the significance of historical socio-economic contexts to ethnicity and everyday life This book addresses many important questions through a critical application of theories of the everyday to a series of case studies that include travellers the South Asian diaspora contemporary Austria and asylum seekers in Fortress Europe This book provides an accessible and coherent introduction to the sociology of ethnicity and will be essential reading for undergraduate students on cultural studies race and ethnic studies and sociology courses

Fighting Against War Julie Kimber, Phillip Deery, Karen Agutter, Anne Beggs-Sunter, Robert Bollard, Verity Burgmann, Liam Byrne, Lachlan Clohesy, Rhys Cooper, Carolyn Holbrook, Nick Irving, Chris McConville, Douglas Newton, Bobbie Oliver, Carolyn Rasmussen, Phil Roberts, Kim Thoday, 2015-02-13 The extended commemorations to mark the 100th anniversary of the Great War have commenced in earnest Over the next four years people around the world will struggle to avoid the politicised public narratives of these remembrances Nationalistic sentiment is no less palpable today than imperial sentiment was a century ago Its opponents are still there too Among the countless commemorative activities that will occur there are innumerable counter narratives Although they are compelling in their telling of oppositional stories they have yet to capture the imagination of the dominant storytellers of our generation Mainstream media governments and politicians of all persuasions remain a captive of soft jingoism and the myth making of Geoffrey Serle's fire eating generals In such a view war remains a lamentable but necessary evil The true costs of war are absorbed only partially Given the destabilisation of much of the globe and the increasing militarisation of domestic politics by Western governments it is unsurprising that a widespread movement for peace is momentarily lost But history provides hope By looking back we can see the ebb and flow of peace movements and the lessons here are instructive The present commemorative phase provides historians with a license to tell the stories that underscore the feeble fabric of nationalistic hubris ones that seek to analyse and understand the human condition rather than simply commemorate it Tales of national rebirth are but one facet of war complicated by a much richer dirtier and more nuanced reality This reality challenges the necessity of war and allows us to empathise with war's victims elucidate oppositional tactics and provide explanations for the difficulties in sustaining a pacifist approach in the midst of war The chapters here deal with aspects of peace and anti war of memory of forgetting and of legacy The majority unsurprisingly given the present historical moment concentrate on the experience of the First World War The shadows of that war are long and the historiography they build on extensive Contributors include Phillip Deery Julie Kimber Karen Agutter Anne Beggs

Sunter Robert Bollard Verity Burgmann Liam Byrne Lachlan Clohesy Rhys Cooper Carolyn Holbrook Nick Irving Chris McConville Douglas Newton Bobbie Oliver Carolyn Rasmussen Phil Roberts and Kim Thoday Ethnic Identity, Memory, and Use of the Past in Italy's 'Dark Ages' Luigi Andrea Bertò, 2022-06-01 This volume examines the Italian peninsula in the early Middle Ages by focusing on research fields such as ethnic identity memory and use of the past Particular attention is devoted to the way some authors were influenced by their own present in their reconstruction of the past The political and cultural fragmentation of Italy during the early Middle Ages created by the Lombards invasion of a part of the Peninsula in the late sixth century and early seventh century Charlemagne's conquest of a part of the Lombard Kingdom in 774 and by the weakening of the Byzantine Empire in the eighth and ninth centuries make this part of Europe a special area for exploring continuities and discontinuities between the Roman and the post Roman periods in Western Europe Across the volume Bertò examines the problems that the features of primary sources and their scarcity pose to their interpretations Ethnic Identity Memory and Use of the Past in Italy's Dark Ages is the ideal resource for upper level undergraduates postgraduates and scholars interested in the relationship between Italy and Europe during the Middle Ages **A History of Austrian**
