Gulf Attack:

The Weapons of Mass Destruction Program of Iraq United States. Congress. Senate. Committee on Armed Services. Subcommittee on Emerging Threats and Capabilities, 2002 **National Security in Saudi Arabia** Anthony H. Cordesman, 2005-09-30 With continuing instability in Iraq the threat of a nuclear Iran and the ever present reality of further terrorist attacks within its own borders Saudi Arabia has been forced to make some hard decisions The current structure of the Saudi security apparatus is only one pathway to improved security Economic and demographic threats may well be the hardest hurdles to overcome What has been accomplished since 2001 and what are the real prospects and implications of further reform To what extent should the kingdom continue to rely on the US to protect its interests Cordesman and Obaid argue that it is time to put an end to client and tutorial relations Saudi Arabia must emerge as a true partner This will require the creation of effective Saudi forces for both defense and counterterrorism Saudi Arabia has embarked on a process of political economic and social reforms that reflects a growing understanding by the governing members of the royal family Saudi technocrats and Saudi businessmen that Saudi Arabia must reform and diversify its economy and must create vast numbers of new jobs for its young and growing population There is a similar understanding that economic reform must be combined with some level of political and social reform if Saudi Arabia is to remain stable in the face of change With Gulf security the war on terrorism and the security of some sixty percent of the world's oil reserves at stake the real question is how quickly Saudi Arabia can change and adapt its overall approach to security and how successful it will be in the process

Toll,2020-09-01 New York Times Bestseller No one has told the story of World War II in the Pacific from beginning to bitter end better than Ian W Toll This final volume concludes a brilliant trilogy Alex Kershaw New York Times best selling author of The First Wave and Avenue of Spies In June 1944 the United States launched a crushing assault on the Japanese navy in the Battle of the Philippine Sea The capture of the Mariana Islands and the accompanying ruin of Japanese carrier airpower marked a pivotal moment in the Pacific War No tactical masterstroke or blunder could reverse the increasingly lopsided balance of power between the two combatants The War in the Pacific had entered its endgame Beginning with the Honolulu Conference when President Franklin Delano Roosevelt met with his Pacific theater commanders to plan the last phase of the campaign against Japan Twilight of the Gods brings to life the harrowing last year of World War II in the Pacific when the U S Navy won the largest naval battle in history Douglas MacArthur made good his pledge to return to the Philippines waves of kamikazes attacked the Allied fleets the Japanese fought to the last man on one island after another B 29 bombers burned down Japanese cities and Hiroshima and Nagasaki were vaporized in atomic blasts Ian W Toll s narratives of combat in the air at sea and on the beaches are as gripping as ever but he also reconstructs the Japanese and American home fronts and takes the reader into the halls of power in Washington and Tokyo where the great questions of strategy and diplomacy were decided Drawing from a wealth of rich archival sources and new material Twilight of the Gods casts a penetrating light on the battles grand strategic decisions and naval logistics that enabled the Allied victory in the Pacific An authoritative and riveting account of the final phase of the War in the Pacific Twilight of the Gods brings Toll s masterful trilogy to a thrilling conclusion This prize winning and best selling trilogy will stand as the first complete history of the Pacific War in more than twenty five years and the first multivolume history of the Pacific naval war since Samuel Eliot Morison s series was published in the 1950s **The Military Balance in the Middle East** Anthony H. is certainly one of the most militarized areas in the world and changes in technology access to weapons of mass destruction and political instability contribute to a situation that has long been in constant flux Some of the regional flashpoints covered in this study include the Maghreb North Africa the Arab Israeli conflict dominated by Israel versus Syria and the Gulf divided into those states that view Iran as the primary threat and those who lived in fear of Iraq Internal conflicts such as those in Mauritania Algeria Libya Egypt Sudan Bahrain Saudi Arabia Iraq and Yemen increasingly dominate regional tensions In addition border conflicts within the region and with neighboring countries could further aggravate the delicate balance
