and eternal From Here to Diversity Clara Sarmiento, 2010-08-11 From Here to Diversity Globalization and Intercultural Dialogues sees interculturalism as movement transit travel and the dynamics between cultures Contemporary intercultural travel is a global journey a circumnavigation at the speed of light that underwrites all the comings and goings the departures and arrivals the transmissions and receptions that are implicit in this title Hence From Here to Diversity examines the motivations characteristics and implications of cultural interactions in their perpetual movement devoid of spatial or temporal borders in a dangerous but stimulating indefinition of limits In the contemporary intercultural dialogue new voices are making themselves heard as valuable sources of study the voices of women non occidentals the non powerful forgotten narratives of a past that was as intercultural as the present after all what is colonialism other than a perverse form of interculturality global entertainment tourism oral literature diaries mythical narratives the cinema ethnography and new teachings among so many others Because this project is also intercultural at its source and subject From Here to Diversity Globalization and Intercultural Dialogues adds to the coherence of the project by including contributions from the most wide ranging backgrounds and nationalities without fear of the alterity that after all we propose to study *Conan Meets the Academy* Jonas Prida, 2012-11-16 Robert E Howard penned a series of fantasy stories in 1932 featuring Conan a hulking warrior from Cimmeria who roamed the mythical Hyborian Age landscape engaging in heroic adventures More than the quirky manifestation of Depression era magazines Conan the Barbarian has endured as a cultural mainstay for over 70 years This multidisciplinary collection offers the first scholarly investigation of Conan from Howard's early stories through midcentury novels and Arnold Schwarzenegger's iconic films to the 2011 cinematic remake of Conan the Barbarian Drawing on disciplines such as stylometry archeology cultural and folklore studies and literary history the essays examine statistical analyses of the words in Conan texts the literary genesis of Conan later day parodies Conan video games and much more This volume reveals the hidden scholarly depth of this seemingly unsophisticated fictional character **Killing for Life** Carol Mason, 2018-08-06 How can those who seek to protect the right to life defend assassination in the name of saving lives Carol Mason investigates this seeming paradox by examining pro life literature both archival material and writings from the front lines of the conflict Her analysis reveals the apocalyptic thread that is the ideological link between established anti abortion organizations and the more shadowy pro life terrorists who subject clinic workers to anthrax scares bombs and bullets The portrayal of abortion as America's Armageddon began in the 1960s In the 1970s Mason says Christian politics and the post Vietnam paramilitary culture popularized the idea that legal abortion is a harbinger of apocalypse By the 1990s Mason asserts even the movement's mainstream had taken up the call narrating abortion as an apocalyptic battle between so called Christian and anti Christian forces Pro life violence of the 1990s signaled a move away from protest and toward retribution she writes Pro life retribution is seen as a way to restore the order of God In this light the phenomenon of killing for life is revealed not as an oxymoron but as a logical consistency and a political manifestation of religious retribution Mason's

scrutiny of primary sources direct mail internal memoranda personal letters underground manuals and pro life films magazines and novels draws attention to elements of pro life millennialism Killing for Life is a powerful indictment of pro life ideology as a coherent mass produced narrative that does not merely condone violence but anticipates it as part of God's plan

How Brands Become Icons D. B. Holt, 2004-09-15 Coca Cola Harley Davidson Nike Budweiser Valued by customers more for what they symbolize than for what they do products like these are more than brands they are cultural icons How do managers create brands that resonate so powerfully with consumers Based on extensive historical analyses of some of America's most successful iconic brands including ESPN Mountain Dew Volkswagen Budweiser and Harley Davidson this book presents the first systematic model to explain how brands become icons Douglas B Holt shows how iconic brands create identity myths that through powerful symbolism soothe collective anxieties resulting from acute social change Holt warns that icons can't be built through conventional branding strategies which focus on benefits brand personalities and emotional relationships Instead he calls for a deeper cultural perspective on traditional marketing themes like targeting positioning brand equity and brand loyalty and outlines a distinctive set of cultural branding principles that will radically alter how companies approach everything from marketing strategy to market research to hiring and training managers Until now Holt shows even the most successful iconic brands have emerged more by intuition and serendipity than by design With *How Brands Become Icons* managers can leverage the principles behind some of the most successful brands of the last half century to build their own iconic brands Douglas B Holt is associate professor of Marketing at Harvard Business School

African Americans in the West Douglas Flamming, 2009-06-22 Based on the latest research this work provides a new look at the lives of African Americans in the Western United States from the colonial era to the present From colonial times to the present this volume captures the experiences of the westward migration of African Americans Based on the latest research it offers a fresh look at the many ways African Americans influenced and were influenced by the development of the U.S. frontier African Americans in the West covers the rise of the slave trade to its expansion into what was at the time the westernmost United States from the post Civil War migrations including the Exodusters who fled the South for Kansas in 1879 to the mid 20th century civil rights movement which saw many critical events take place in the West from the organization of the Black Panthers in Oakland to the tragic Watts riots in Los Angeles

The Western David Lusted, 2014-10-13 The Western introduces the novice to the pleasures and the meanings of the Western film shares the excitement of the genre with the fan addresses the suspicions of the cynic and develops the knowledge of the student The Western is about the changing times of the Western and about how it has been understood in film criticism Until the 1980s more Westerns were made than any other type of film For fifty of those years the genre was central to Hollywood's popularity

and profitability The Western explores the reasons for its success and its latter day decline among film makers and audiences alike Part I charts the history of the Western film and its role in film studies Part II traces the origins of the Western in nineteenth century America and in its literary theatrical and visual imagining This sets the scene to explore the many evolving forms in successive chapters on early silent Westerns the series Western the epic the romance the dystopian the elegiac and finally the revisionist Western The Western concludes with an extensive bibliography filmography and select further reading Over 200 Westerns are discussed among them close accounts of classics such as *Duel in the Sun* *The Wild Bunch* and *Unforgiven* formative titles like John Ford's epic *The Iron Horse* and early cowboy star William S Hart's *The Silent One* together with less familiar titles that deserve wider recognition including *Comanche Station* *Pursued* and *Ulzana's Raid*

Breaking Boundaries Agnes Horvath, Bjørn Thomassen, Harald Wydra, 2015-05-01 Liminality has the potential to be a leading paradigm for understanding transformation in a globalizing world As a fundamental human experience liminality transmits cultural practices codes rituals and meanings in situations that fall between defined structures and have uncertain outcomes Based on case studies of some of the most important crises in history society and politics this volume explores the methodological range and applicability of the concept to a variety of concrete social and political problems *Theodore Roosevelt's Ghost* Michael Patrick Cullinane, 2017-12-11 A century after his death Theodore Roosevelt remains one of the most recognizable figures in U S history with depictions of the president ranging from the brave commander of the Rough Riders to a trailblazing progressive politician and early environmentalist to little more than a caricature of grinning teeth hiding behind a mustache and pince nez Theodore Roosevelt's Ghost follows the continuing shifts and changes in this president's reputation since his unexpected passing in 1919 In the most comprehensive examination of Roosevelt's legacy Michael Patrick Cullinane explores the frequent refashioning of this American icon in popular memory The immediate aftermath of Roosevelt's death created a groundswell of mourning and goodwill that ensured his place among the great Americans of his generation a stature bolstered by the charitable and political work of his surviving family When Franklin Roosevelt ascended to the presidency he worked to situate himself as the natural heir of Theodore Roosevelt reshaping his distant cousin's legacy to reflect New Deal values of progressivism intervention and patriotism Others retroactively adapted Roosevelt's actions and political record to fit the discourse of social movements from anticommunism to civil rights with varying degrees of success Richard Nixon's frequent invocation led to a decline in Roosevelt's popularity and a corresponding revival effort by scholars endeavoring to give an accurate nuanced picture of the 26th president This wide ranging study reveals how successive generations shaped the public memory of Roosevelt through their depictions of him in memorials political invocations art architecture historical scholarship literature and popular culture Cullinane emphasizes the historical contexts of public memory exploring the means by which different communities worked to construct specific representations of Roosevelt often adapting his legacy to suit the changing needs of the present Theodore Roosevelt's Ghost provides a

compelling perspective on the last century of U S history as seen through the myriad interpretations of one of its most famous and indefatigable icons **American Sacred Space** David Chidester,Edward T. Linenthal,1995-11-22 In a series of pioneering studies this book examines the creation and the conflict behind the creation of sacred space in America The essays in this volume visit places in America where economic political and social forces clash over the sacred and the profane from wilderness areas in the American West to the Mall in Washington D C and they investigate visions of America as sacred space at home and abroad Here are the beginnings of a new American religious history told as the story of the contested spaces it has inhabited The contributors are David Chidester Matthew Glass Edward T Linenthal Colleen McDannell Robert S Michaelsen Rowland A Sherrill and Bron Taylor *Projecting Words, Writing Images* John R. Leo,Marek Paryz,2011-08-08 This compilation of essays by 20 scholars trained in comparative literatures art history critical theory and American cultural studies further explores and expands the spirited and energetic field of visual cultural studies and its cognate or supplemental projects of visual practices and visual literacy Their topics and perspectives engage contemporary re theorizations of text of word and image while their alignments ruptures slippages and aporias fall across a range of media practices and institutions These include photography and exhibition film television entertainment journalism poetry and literature as visual and spectacular performances and graphic narratives but also their discursive intersections with race and ethnicity their conjugations of gender their tense and constitutive relations within multiple public spheres and post modernities The Voice of Violence Joel P. Rhodes,2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era s activism particularly its political violence based on more local studies *Reimagining the Promised Land* Rodney Wallis,2020-09-17 While Israel has seemingly been a minor presence in Hollywood cinema Reimagining the Promised Land argues that there is a long history of Hollywood deploying images of Israel as a means of articulating an idealized notion of American national identity This

argument is developed through readings of *The Ten Commandments* Cecil B DeMille 1956 *Ben Hur A Tale of the Christ* William Wyler 1959 *Exodus* Otto Preminger 1960 *Cast a Giant Shadow* Melville Shavelson 1966 *Black Sunday* John Frankenheimer 1977 *The Delta Force* Menahem Golan 1986 and *Munich* Steven Spielberg 2005 The mobilization of Israel that pervades this eclectic group of films effectively demonstrates one of the more surreptitious ways in which Hollywood has historically constructed and circulated dominant notions of American national identity Moreover in examining the most notable Hollywood representations of the Jewish state the book offers an informed historical overview of the cultural forces that have contributed to popular understandings within the United States of the state of Israel Israel's Arab neighbours and also the Arab Israeli conflict
