Guns Across The Border:

Guns Across the Border Mike Detty, 2013-04-29 Conducted under the umbrella of Project Gunrunner intended to stem the flow of firearms to Mexico the Bureau of Alcohol Tobacco Firearms and Explosives ATF ran a series of gun walking sting operations including Operations Wide Receiver and Operation Fast Furious The government allowed licensed gun dealers to sell weapons to illegal straw buyers so that they could continue to track the firearms as they were transferred to higher level traffickers and key figures in Mexican cartels Motivated by a sense of patriotic duty Tucson gun dealer and author Mike Detty alerted the local ATF office when he was first approached by suspected cartel associates Detty made the commitment and assumed the risks involved to help the feds make their case often selling guns to these thugs from his home in the dead of night Originally informed that the investigation would last just weeks Detty's undercover involvement in Operation Wide Receiver the precursor to Operation Fast Furious which was by far the largest gun walking probe stretched on for an astonishing and dangerous three years Though the case took several twists and turns perhaps the cruelest turn was his betrayal by the very agency he risked everything to help *Illicit traffic in weapons and drugs across the United*

inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the importance of each method and the type of arms has changed remarkably over time Understanding Non State Actors discusses the factors political social cultural technological and organizational that have both facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study

America and Its Guns James E. Atwood, 2012-06-01 James Atwood contends that the thirty thousand gun deaths America suffers every year cannot be understood apart from our national myth that God has appointed America as the trustee of the civilization of the world and even Christ's light to the nations Because these purposes are noble and we are supposedly a good and trustworthy people violence is sometimes required and gives license to individuals to carry open or concealed weapons which save lives and can even be redemptive Atwood an avid hunter cautions that an absolute trust in guns and violence morphs easily into idolatry Having spent thirty six years as a Presbyterian pastor fighting against the easy access to firearms one of which took the life of a friend he uses his unique experience and his biblical and theological understanding to graphically portray the impact guns have on our society He documents how Americans have been deceived into believing that the tools of violence whether they take the form of advanced military technology or a handgun in the bedside stand will provide security He closes with a wake up call to the faith community which he says is America's best hope to unmask the extremism of the Gun Empire
