Guns At Genesis Atlantic Large Print:

The British Hawkins Class Cruisers Aidan Dodson, 2025-02-04 During the First World War rumors of heavily armed German raiders led to the building of the first modern heavy cruisers by the Royal Navy Named for famous Elizabethan seamen they were very different from the lumbering armored cruisers of the previous generation and were enlarged developments of the highly successful light cruisers that had been built since the mid 1910s As such they provided the prototypes for the Washington Treaty cruisers that dominated naval construction during the 1920s with two of them also pioneering the use of the catapult for launching aircraft from cruisers Completed too late to actively participate in the First World War they would go on to have mixed fortunes spending much of their careers as flagships but also being sadly attracted to rocky reefs in two cases with fatal results One Cavendish later Vindictive fulfilled a remarkable array of functions during her career laid down as a cruiser completing as an aircraft carrier then reverting to a cruiser to be further transformed into a dedicated cadet training ship and finally a repair ship Meanwhile Effingham underwent the most comprehensive rebuilding of any British cruiser of her era Disarmed and nearly scrapped as a result of the London Naval Treaty all the survivors nevertheless returned to serve during the Second World War in a range of roles two gaining battle honors albeit in one case fatally during the Norwegian campaign and Hawkins and Frobisher spending long years as deep sea escorts in the South Atlantic and Indian Oceans before being brought back to bombard the beaches of Normandy The story of the Hawkins class therefore weaves strands that include the technical development of the cruiser in the UK and abroad the early use of aircraft at sea international naval diplomacy and treaty making between the wars the evolution of the cadet training regime in the Royal Navy the way in which the vital southern and eastern trade routes were kept open and the contribution of naval forces to the success of the invasion of Europe With its detailed descriptions and analysis of the ships and their development and the narratives of their careers all tied together with a wide ranging collection of photographs and line drawings this new history of a distinguished Royal Navy cruiser class will delight naval historians and enthusiasts ship modelers and all those who care to read about the exploits of the imperial navy in peace and war *Subject Guide to Books in Print* ,1996
