

Guns, Crime, and Freedom

WAYNE LAPIERRE
Foreword by TOM CLANCY

Guns Crime And Freedom

Steven H. Propp

Guns Crime And Freedom:

Guns, Crime and Freedom Wayne R. LaPierre, 1994 A definitive manual for taking part in the political debate and preserving your right to keep and bear arms Tom Clancy A New York Times Best Seller **Guns, Crime and Freedom** Wayne LaPierre, 1994-01-01 In this book Wayne LaPierre CEO and National Spokesperson for the National Rifle Association NRA has written the first single source that provides the facts about the agenda of those who want to ban guns He vigorously challenges the media and their claim that private gun ownership is the cause of the spiraling crime rate that has made American streets and communities unsafe He explains with detailed facts how the freedom guaranteed in our Constitution is called into question when legislation is proposed to ban guns and impose waiting periods and limitations on gun purchases La Pierre argues that it is urgent that our right of self defense not be put in jeopardy **Guns, Freedom, and Terrorism** Wayne R. LaPierre, 2003 On September 11 2001 America was defiled by terror our people mass murdered by fanatics willing to forfeit their own lives to kill as many innocent civilians as they could The horrific evil inflicted on America that day was also a frontal assault on the very values that have made this nation a power house liberty democracy justice and decency To the nation s gun ban lobby however the mindless tragedy was seen as an opportunity to seize on terrorism as an excuse to launch a new wave of harsh gun laws against peaceable citizens But their antidefense dogma fell on deaf ears Citizens quickly decided to assume responsibility for their own protection Homeland security meant exercising Second Amendment rights it meant common sense gun ownership It meant Americans fighting back from airline pilots to average citizens **Guns Freedom and Terrorism** exposes the myths of those who demand we give up the liberties our forefathers fought valiantly to protect It s about the true meaning of an armed citizenry and the nation s bedrock belief in preserving freedom This fact filled book provides forceful and convincing arguments on all the current issues facing firearms ownership in America including arming airline pilots animal rights extremists extortion of firearms manufacturers gun show prohibition international disarmament self defense and right to carry laws media bias and the historical and legal foundations affirming an individual s right to keep and bear arms Book jacket **Guns, Crime, and Freedom** Wayne R. LaPierre, 1995 An examination of the gun control debate by the CEO of the National Rifle Association argues that taking away guns from those who acquire them legally is a dangerous idea and states that the criminal justice system and not gun control is behind our nation s problem *Guns and Freedom, a Balanced View* Pasquale De Marco, 2025-07-26 **Guns and Freedom a Balanced View** is a comprehensive overview of the gun control debate in America This book provides a clear and concise examination of the history of gun control the arguments for and against it and the impact of gun control on crime rates It also discusses the role of the National Rifle Association and the future of gun control in America This book is written in a balanced and objective style and it provides a fair and impartial examination of the gun control debate The author does not take sides in the debate but instead presents both sides of the issue in a clear and concise manner This book is an essential resource for

anyone who wants to learn more about the gun control debate It is a valuable resource for students researchers policymakers and anyone else who is interested in this important issue About the Author Pasquale De Marco is a leading expert on the gun control debate He has written extensively on the topic and he has appeared on numerous television and radio programs to discuss gun control He is a member of the National Rifle Association and the Brady Campaign to Prevent Gun Violence If you like this book write a review

Guns in American Society Gregg Lee Carter,2012-05-04 Thoroughly updated and greatly expanded from its original edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of *Guns in American Society* An Encyclopedia of History Politics Culture and the Law was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of *Guns in American Society* is the most current resource available on all aspects of the gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters

Do Guns Make Us Free? Firmin DeBrabander,2015-05-19 This study investigates the relationship between gun ownership and democracy exposing the dubious claims of the NRA and other gun rights supporters One of the most vital and polarizing debates in American society today concerns the Second Amendment of the Constitution and the rights of citizens to bear arms The core argument of gun advocates like the National Rifle Association is that the proliferation of firearms is essential to maintaining freedom in America They contend that access to guns gives private citizens a defense against possible government tyranny thereby safeguarding all our other rights But is this argument valid Do guns indeed make us free Firmin DeBrabander examines claims offered in favor of unchecked gun ownership in this insightful and eye opening analysis By exposing the contradictions and misinterpretations presented by gun rights supporters DeBrabander concludes that an armed society is not a free society but one that in fact actively hinders democratic participation

Handguns and Freedom Joe Pierre,2002-12 Of what good are the freedoms spelled out in the Bill of Rights if the people lack the power to enforce them As Thomas Hobbes Noted in 1651 in his book *Leviathan* Covenants without the Sword are but Words and of no strength to secure a man at all The attempts by liberal forces in this country in the last few decades to deprive the American people of their private firearms and thus to deny them their constitutionally guaranteed right to own and carry private means of self defense is an old and infamous pattern of conduct dating back centuries a common practice of tyrants If the people do not resist this effort we are

in dire danger of losing not only our other freedoms which are enumerated in the Bill of Rights but also the blessings of liberty which the Preamble proclaimed was one of the main goals of the government established by that document This book is intended to serve as an alarm both to the well meaning but misled who are unwittingly being used by sinister forces who would destroy our freedoms but also for those who are oblivious to the battle for the palladium of our freedoms the Second Amendment to the Constitution *Women and Guns* Deborah Homsher,2015-05-20 This timely and provocative book looks at contemporary American women and their experiences with guns Scrupulously balanced this new paperback edition features a new appendix containing a wealth of primary source documents that help illuminate both the dangers and attractions of guns in our society *Liberty Means Freedom for All* Steven H. Propp,2012-11-16 Thomas Anderson has just graduated from CSU Stentoria with his degree in Political Science Its an election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rands philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved *Guns, Democracy, and the Insurrectionist Idea* Joshua Horwitz,Casey Anderson,2018-05-09 Does the gun lobby threaten the democratic institutions safeguarding individual liberty in America

"Guns Don't Kill People, People Kill People" Dennis A. Henigan,2016-07-26 A must read for every American who longs to bring sanity to our nation s gun laws this book debunks the lethal logic behind the myths that have framed the gun control debate Ariana Huffington Huffington Post The gun lobby s remarkable success in using engaging slogans to frame the gun control debate has allowed it to block lifesaving gun legislation for decades But is there any truth to this bumper sticker logic Dennis Henigan exposes the mythology and misguided thinking at the core of these pro gun catchphrases which continue to have an outsized influence on public attitudes toward guns and gun control Pro Gun Myths Include When guns are outlawed

only outlaws will have guns An armed society is a polite society The only thing that stops a bad guy with a gun is a good guy with a gun Gun control doesn't work because criminals don't follow the law Gun manufacturers shouldn't be responsible for gun crime any more than Budweiser is responsible for drunk driving We don't need new gun laws We just need to enforce the ones we have Gun control is a slippery slope to complete gun bans Henigan counters the gun lobby's messages by weaving together the most compelling current research and insights drawn from the grim reality of deadly gunfire in our homes and communities Henigan charts a new path toward ending the American nightmare of gun violence *Social Problems, Social Issues, Social Science* James Wright, 2017-07-05 Sociology has tackled some of the most formidable problems that confront contemporary society inequality homelessness violence gender and many more Sociologists assert that hypotheses can be formulated and tested against empirical evidence that faulty viewpoints can be uncovered and discarded and that plausible theory can be distinguished from mere ideology This collection was written over a span of forty four years and is presented in the belief that sociology is a science In *Social Problems Social Issues Social Science* James D Wright presents his research on some of the social issues that have most vexed America homelessness addiction divorce minimum wage and gun control among others Starting with essays first published in the flagship journal *Society* Wright offers readers a foundational look at specific social problems and the methods sociologists have used to study them He then provides an up to date re examination of each issue analysing the changes that have occurred over time and how sociologists have responded to it This book is both a retrospective on the field and on one scholar's life and work Using his own experience in researching and writing about America's most trenchant social issues Wright describes the evolution of the methods and theory used by social scientists to understand and ultimately to confront America's most troublesome social problems *Race, Rights, and Rifles* Alexandra Filindra, 2023-09-26 An eye opening examination of the ties between American gun culture and white male supremacy from the American Revolution to today One third of American adults approximately 86 million people own firearms This is not just for protection or hunting Although many associate gun centric ideology with individualist and libertarian traditions in American political culture *Race Rights and Rifles* shows that it rests on an equally old but different foundation Instead Alexandra Filindra shows that American gun culture can be traced back to the American Revolution when republican notions of civic duty were fused with a belief in white male supremacy and a commitment to maintaining racial and gender hierarchies Drawing on wide ranging historical and contemporary evidence *Race Rights and Rifles* traces how this ideology emerged during the Revolution and became embedded in America's institutions from state militias to the National Rifle Association NRA Utilizing original survey data Filindra reveals how many White Americans including those outside of the NRA's direct orbit embrace these beliefs and as a result they are more likely than other Americans to value gun rights over voting rights embrace antidemocratic norms and justify political violence *America and Its Guns* James E. Atwood, 2012-06-01 James Atwood contends that the thirty thousand gun deaths America suffers every year cannot be

understood apart from our national myth that God has appointed America as the trustee of the civilization of the world and even Christ's light to the nations. Because these purposes are noble and we are supposedly a good and trustworthy people, violence is sometimes required and gives license to individuals to carry open or concealed weapons which save lives and can even be redemptive. Atwood, an avid hunter, cautions that an absolute trust in guns and violence morphs easily into idolatry. Having spent thirty-six years as a Presbyterian pastor fighting against the easy access to firearms, one of which took the life of a friend, he uses his unique experience and his biblical and theological understanding to graphically portray the impact guns have on our society. He documents how Americans have been deceived into believing that the tools of violence, whether they take the form of advanced military technology or a handgun in the bedside stand, will provide security. He closes with a wake-up call to the faith community, which he says is America's best hope to unmask the extremism of the Gun Empire.

The Freedom Handbook Luke Denis, Chris Hampton, 2017-03-03 SHOCKING BEAUTIFUL PROVOCATIVE and WILD A big bold manifesto covering most of our world's issues, this message feels good and positive overall because it's stacked with solutions that sandwich all problems. It reads easily and surprisingly quickly yet it constantly challenges you and evokes a wide range of powerful emotion. Recognizing the enormous task of changing beliefs, you feel supported at times through a wild journey, and the chapter A Whole World's Dark Night of the Soul offers solid footing in scary territory. This is an impassioned guide to breaking the chains that hold humanity back and an insightful inciting examination of the juxtaposition between mankind's infinite potential and the limitations imposed by the plutocracy that will leave you vibrating with excitement. SOLUTIONS TO END THE LEFT RIGHT DEBATE Refreshingly principled, non-partisan look at politics and the world. Our future is our choice: Orwellian squared or freedom. This handbook ignores the rabbit holes and evidences just how moot most of these issues truly are. Taking out the trash from our conversations allows us to focus on the core issues. Socialists, libertarians, anarchists, and fans of democracy alike can all find common ground and answers to valid concerns in this strikingly straightforward set of ideas and strategy. STRIKING DECISIVENESS AND SURPRISING DIRECT ACTION Packing a lot of sense, punch, and power to help freedom gain more ground and all of humanity to live happier, healthier lives. The Freedom Handbook also provides fascinating insight into the ideas and thinking of two of today's newest and loudest voices for freedom: Luke Denis and Chris Hampton, co-founders of the new controversial media channel Incite Insight.

Lethal Logic Dennis A. Henigan, 2009-06-30 Guns don't kill people; people kill people. When guns are outlawed, only outlaws will have guns. An armed society is a polite society. Who hasn't heard these engaging assertions time and time again? Burned into the national consciousness by years of targeted, disciplined messaging by the National Rifle Association and others, they are just a few of the bumper sticker slogans that have defined the gun control debate in America. Long ridiculed by gun control advocates, they are the first words that come to mind for most Americans when the gun issue is discussed. This is the first book both to acknowledge the profound and deadly impact of the gun lobby's bumper sticker logic on the gun

control debate and to systematically expose the misguided thinking at the core of the pro gun slogans Indeed the author contends that the gun lobby s remarkable success in blocking passage of lifesaving gun laws is the result in large part of its relentless and effective use of these simple and resonant messages Their persuasive power has been a largely ignored influence on the current politics of gun control in which the gun lobby wields unprecedented power in the Republican Party while many Democratic Party leaders see the policy benefits of stronger gun laws as not worth the political risk of standing up to the NRA The book contends that the current political stalemate over guns will never be broken until the pro gun slogans are exposed as the cleverly disguised fallacies that they are

Macrocriminology and Freedom John

Braithwaite, 2022-02-15 How can power over others be transformed to power with It is possible to transform many institutions to build societies with less predation and more freedom These stretch from families and institutions of gender to the United Nations Some societies times and places have crime rates a hundred times higher than others Some police forces kill at a hundred times the rate of others Some criminal corporations kill thousands more than others Micro variables fail to explain these patterns Prevention principles for that challenge are macrocriminological Freedom is conceived in a republican way as non domination Tempering domination prevents crime crime prevention reduces domination Many believe a high crime rate is a price of freedom Not Braithwaite His principles of crime control are to build freedom temper power lift people from poverty and reduce all forms of domination Freedom requires a more just normative order It requires cascading of peace by social movements for non violence and non domination Periods of war domination and anomie cascade with long lags to elevated crime violence inter generational self violence and ecocide Cybercrime today poses risks of anomic nuclear wars Braithwaite s proposals refine some of criminology s central theories and sharpen their relevance to all varieties of freedom They can be reduced to one sentence Strengthen freedom to prevent crime prevent crime to strengthen freedom A true magnum opus Macrocriminology and Freedom is a thought provoking and generative book from one of criminology s intellectual giants John Braithwaite reaches far and wide across societies time and disciplines to advance no less than a theory of how to build a society that simultaneously reduces both domination and crime His ambitious ideas on cascades of non dominating collective efficacy and crime prevention for example and their connections to social movements and political freedom go well beyond usual criminological discourse Chock full of theoretical propositions and bold insights this a book that will keep criminologists busy for years Macrocriminology and Freedom should not just be read but better yet savoured Robert J Sampson Henry Ford II Professor of the Social Sciences Harvard University In this majestic theorisation of the relationship between crime and freedom John Braithwaite isolates the unique power of macrocriminology as a lens through which to comprehend and challenge many of the fundamental crises facing our planet Very few scholars have the breadth and overview to succeed in a mission of this order Braithwaite does This extraordinary book is an object lesson for all who seek to understand and resist domination and the crimes of power that flow from it Penny Green Professor of Law and

Globalisation Queen Mary University of London For over 40 years John Braithwaite has been a voice of wisdom hope and humanity in criminology This dazzling new book weaves together all the main themes of his influential work reanimating many of the core concepts of the discipline as well as incorporating interdisciplinary resources from south and north east and west to produce an elegant and ambitious explanatory and normative account of crime as freedom threatening domination Decentring criminal justice as the solution to crime Braithwaite shows that on a global scale the aspiration to tackle crimes ranging from interpersonal violence through corporate crimes to ecocide lies in the development of freedom enhancing power tempering institutions in the political economic and social spheres Nicola Lacey Professor of Law Gender and Social Policy London School of Economics *Macrocriminology and Freedom* is a criminological epic an expansive and erudite story that sweeps across history and contexts The book is frightening in showing how cascading events can produce catastrophes from crime to environmental destruction But in the end its message is hopeful identifying pathways or normative rivers for guiding freedom from domination and crime Drawing on his distinguished career John Braithwaite has bestowed an extraordinary gift a book like other masterpieces that will yield special insights each time we take an excursion through its pages Francis T Cullen Distinguished Research Professor Emeritus University of Cincinnati In this engaging book John Braithwaite reinvigorates discussions about crime and its control While advocating a macro approach the book is punctuated not only with insights and data from smaller scale studies conducted in a range of jurisdictions but also with autobiographical vignettes The effect creates a deeply personal account of the perils of state non state and market violence and authoritarianism and the potential and indeed duty of criminologists to work towards their reduction by refocusing their efforts on explaining and tackling crime in its myriad of forms Mary Bosworth Professor of Criminology University of Oxford and Monash University John Braithwaite has had a unique influence on criminology globally In this encyclopaedic text he synthesises a wealth of criminological knowledge particularly in the sphere of anomie theory into broader debates about the nature of domination and freedom in contemporary society He defends the relevance of criminological theory while urging criminology to be activist rather than reactive and technocratic counter hegemonic rather than neutral Not for the first time John Braithwaite has challenged criminologists to construct theories that cut across micro and macro structures This book will stir debate It deserves a broad readership Harry Blagg Professor of Criminology University of Western Australia

First Freedom David Harsanyi, 2019-10-22 From one of America's smartest political writers comes a captivating and comprehensive journey 1 New York Times bestselling author David Limbaugh of the United States unique and enduring relationship with guns For America the gun is a story of innovation power violence character and freedom From the founding of the nation to the pioneering of the West from the freeing of the slaves to the urbanization of the twentieth century our country has had a complex and lasting relationship with firearms In *First Freedom* nationally syndicated columnist and veteran writer David Harsanyi explores the ways in which firearms have helped preserve our religious economic and cultural

institutions for over two centuries From Samuel Colt s early entrepreneurship to the successful firearms technology that helped make the United States a superpower the gun is inextricably tied to our exceptional rise In the vein of popular histories like American Gun Salt and Seabiscuit Harsanyi takes us on a captivating and thrilling ride of Second Amendment history that demonstrates why guns are not only an integral part of America s past but also an essential part of its future First Freedom is a briskly paced journey a welcome lesson on how guns and America have shaped each other for four hundred years National Review **United States Department of Justice** United States. Congress. House. Committee on the Judiciary,2001

When somebody should go to the books stores, search inauguration by shop, shelf by shelf, it is in fact problematic. This is why we present the book compilations in this website. It will unconditionally ease you to look guide **Guns Crime And Freedom** as you such as.

By searching the title, publisher, or authors of guide you really want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections.
