Guns Germs and Steel Jared Diamond,2005-07-12 Fascinating Lays a foundation for understanding human history Bill Gates Winner of the Pulitzer Prize Guns Germs and Steel is a brilliant work answering the question of why the peoples of certain continents succeeded in invading other continents and conquering or displacing their peoples This edition includes a new chapter on Japan and all new illustrations drawn from the television series Until around 11 000 BC all peoples were still Stone Age hunter gatherers At that point a great divide occurred in the rates that human societies evolved In Eurasia parts of the Americas and Africa farming became the prevailing mode of existence when indigenous wild plants and animals were domesticated by prehistoric planters and herders As Jared Diamond vividly reveals the very people who gained a head start in producing food would collide with preliterate cultures shaping the modern world through conquest displacement and genocide The paths that lead from scattered centers of food to broad bands of settlement had a great deal to do with climate and geography But how did differences in societies arise Why weren t native Australians Americans or Africans the ones to colonize Europe Diamond dismantles pernicious racial theories tracing societal differences to biological differences He assembles convincing evidence linking germs to domestication of animals germs that Eurasians then spread in epidemic proportions in their voyages of discovery In its sweep Guns Germs and Steel encompasses the rise of agriculture technology writing government and religion providing a unifying theory of human history as intriguing as the histories of dinosaurs and glaciers Guns, Germs and Steel Jared Diamond,2017 *Critical Summary of Guns, Germs, and Steel - The Fates of Human Societies by Jared Diamond* Dennis Bergot,2004-02-17 Seminar paper from the year 2004 in the subject Economy Environment economics grade 1 0 A University of Hamburg Centre for Sea and Climate Research course Seminar Contemporary Environmental Problems language English abstract The starting point of Diamond s book Guns Germs And Steel is a question he was asked by an indigenous New Guinean friend of his called Yali His question was Why is it that you white people developed so much cargo and brought it to New Guinea but we black people had little cargo of our own 1 adressing the obvious inequality in wealth and power of today s world With his book Diamond tries to provide an answer for

this question According to Diamond the immediate causes for the inequalities in the world today are to be found in the different stages of development between the continents as of around A D 1500 By that time only societies of Eurasia the landmass that constitutes Asia and Europe and there especially the Western Europeans possessed ocean going ships population decimating germs steel weapons horses usable for warfare easy spread of information by an efficient writing system and many other means that come in handy decimating subjugating or in some cases even exterminating the original inhabitants of other continents Diamond calls these advantages the proximate factors of differing developments that led to the inequalities The book s title *Guns Germs And Steel* can be understood as a summary of these proximate causes In chapter three of his book Diamond cites as a prominent example of the inequalities the conquest by the Spaniard Francisco Pizarro and a few hundred soldiers over the Inca emperor Atahualpa at Cajamarca Peru in A D 1532 The Spanish got there and won because they possessed the above stated proximate factors He then turns the point around and asks why for instance the Native Americans or Aboriginal Australians were not the ones who possessed these proximate factors and used them to conquer Europe
