## **Gurdjieff Making A New World:**

*Gurdjieff* J. G. Bennett, 2016-07 The most complete comprehensive account of the life and work of George Ivanovich Gurdjieff one of the greatest men of the 20th century and the only one which attempts to describe his mission Since Gurdjieff's death in 1949 countless books have been written describing an author's experience with him in more or less personal detail This is the first and only book written by an associate of Gurdjieff presenting an overview of Gurdjieff's life cultural background studies teachings practices cosmology psychology and goals The author encountered Gurdjieff first in Istanbul in 1920 saw him again in London and the Priore Fontainebleau lost touch with him for 25 years and saw him again in Paris and New York in the last two years of his life He devoted the last 25 years of his own life to researching and transmitting Gurdjieff's teachings As the title suggests the author identifies Gurdjieff's work as nothing less than the inauguration of a new epoch of human evolution based upon a new understanding of the meaning of Conscience a model based not upon the supremacy of the individual and humanity as a whole but upon cooperation with both higher and lower powers The twelve chapters and two appendices are written as a series of essays which can be read either sequentially or separately The second appendix gives an account of a cosmological system that is parallel to but entirely separate from the Ray of Creation described in detail in Ouspensky's *In Search of the Miraculous*

**Gurdjieff** John Godolphin Bennett, 1976 **Philosophy and Art in Gurdjieff's Beelzebub** Anna T. Challenger, 2021-07-26 This book demonstrates that the most forceful contribution to George Gurdjieff's world view is Sufism understood as the tradition of seeking truth wherever it can be found especially at the meeting place of the world religions Gurdjieff's masterpiece *Beelzebub's Tales to His Grandson* is philosophically analyzed in its use of literary devices to jolt the reader into radical transformation **Gurdjieff's America**

Paul Beekman Taylor, 2004 Offers information and stories about Gurdjieff setting him within the cultural and social contexts of America between 1924 and 1935 *Idiots in Paris* Elizabeth Bennett, John Godolphin Bennett, 2012-04-02 In 1949 JG

Bennett was engaged in with Gurdjieff's help a titanic struggle with his own nature which he describes in these diaries However Elizabeth's entries which make up the bulk of this book give witness to conditions in Gurdjieff's circle at the end of his life an impartial description with very little self in it In 2012 when there are few people left alive who met and worked with the Armenian mystic philosopher G I Gurdjieff d 1949 it is all the more important to have such an honest eyewitness account as the one Elizabeth Bennett presents here Elizabeth's original introduction included in this new edition and the diaries themselves outline far better than any later commentator can the conditions in which Gurdjieff's pupils lived as satellites revolving round a brilliant sun This edition contains new material unpublished entries from Elizabeth Bennett's personal Paris diary and a 2008 Foreword by Elizabeth and John Bennett's son George Bennett **Enneagram Theology**

Rhenn Cherry, 2021-08-16 The enneagram has become popular among evangelical Christians as a spiritualized personality typology that claims to help people better understand themselves and others Several influential evangelical Christian

leadership ministries have promoted the enneagram as a tool in forming and maintaining effective ministry teams and the personality typology is now taught and embraced at several Christian universities But uncertainty exists about the appropriateness of referring to the Enneagram as a Christian tool Are pastors and Christian institutional leaders aware of the theology associated with the Enneagram Enneagram Theology Is It Christian provides a biblical critique of the Enneagram s underlying theology and exposes not only its foundational theological contradictions with orthodox evangelical theology but also some potential dangers to the church

**Maurice Nicoll** Gary Lachman,2024-06-18 Traces the life of Maurice Nicoll who left a successful career as a psychiatrist in 1922 to study with G I Gurdjieff and P D Ouspensky Explores newly uncovered diaries from Nicoll revealing his mystical sex practices his shadow self and new understandings of his unorthodox teachings Examines the influence of psychiatrist Carl Jung and Swedish scientist and philosopher Emanuel Swedenborg on Nicoll s work In 1922 Maurice Nicoll 1884 1953 abandoned his successful London psychiatry practice and his direct studies with Carl Jung to move his family just outside of Paris to the Institute for the Harmonious Development of Man a center recently opened by philosopher mystic and spiritual guru G I Gurdjieff the founder of the esoteric system that became known as the Fourth Way Nicoll went on to become one of the most passionate teachers of the Fourth Way committing the final three decades of his life to teaching The Work in his own unorthodox style In this revealing biography Gary Lachman draws on recently uncovered diaries to explore the unusual syncretic approach Nicoll brought to his teaching of the Fourth Way He shows how Nicoll is unique in having Jung Gurdjieff and Ouspensky as teachers and to have known each of these important figures in esoteric history personally yet as Lachman reveals Nicoll was not a blind devotee by any stretch Lachman shows how Nicoll incorporated elements of Jungian psychology and Emanuel Swedenborg inspired mysticism into his exploration and teaching of both Gurdjieff s and Ouspensky s ideas as well as into his own best known work Psychological Commentaries on the Teaching of Gurdjieff and Ouspensky Lachman reveals the unorthodox side of Nicoll in fuller detail than ever before through excerpts from recently shared diaries

in which Nicoll included detailed accounts of his own solitary self sex erotic experimentations to reach visionary states along with recordings of his dreams and other personal and mystical reflections The social details of Nicoll s life are also examined including vivid portraits of the occult scene in the early to mid twentieth century and the communal living situations in which Nicoll sometimes resided Drawing on his familiarity with hermetic practices and his own experiences with The Work Lachman comprehensively explores the significance of Nicoll and the novelty of his thought offering a profound needed and sympathetic but critical study of this man so instrumental to the development and legacy of the Fourth Way

**Transcending the Speed of Light** Marc Seifer,2008-08-13 A study of the new scientific understanding of consciousness and the mind as a fifth dimension of reality Introduces the existence of a fifth dimension one of mind an inner or hyperspace where time is transcended Shows how the barrier of the speed of light is actually a gateway demarking the fifth dimension Since the introduction of Descartes dualism in the seventeenth century the mind and the physical world have been viewed as disconnected entities Yet qualities of mind such as awareness purposeful action organization design and even decision making are present within the structure of matter and within the dimensions of space and time The space time continuum of scientists generally ignores the realm of the mind though phenomena such as imaginary numbers used by Einstein to combine space with time are concepts that only exist in the mind Marc Seifer contends that the inadequacy of four dimensional models to account for our experience of mental phenomena points to the consciousness of the mind as a higher organizing principle a fifth dimension where thoughts are as real and quantifiable as our familiar physical world He shows that because thought enables us to move backward and forward through time reflecting on the past and making plans for the future this fifth dimension of mind breaks the laws of relativity thereby transcending the speed of light His extensive study of this fifth dimension ranges from relativity and ether theory to precognition telepathy and synchronicity all from the perspective of the conscious universe
