### **Hawker's Secret Cold War Airfield**

Christopher Budgen, 2020-11-23 A military aviation expert chronicles the decades of breathtaking innovation that took place at Britain's secret airbase In 1951 Hawker Aircraft started using Dunsfold Aerodrome to test its new jet projects The Sea Hawk was followed by the superlative Hunter Then came a radical new engine design for an aircraft capable of vertical take off and landing While nay sayers claimed it would never work the Harrier proved them wrong becoming a vital asset during the Falklands War Then came the Hawk which after completion of the RAF requirement was sold into air arms across the world including the US Navy It was an incredible achievement for a UK design British Aerospace then brought forth its upgraded Harrier the Harrier GR 5 One might expect that this prolific output was the result of some massive industrial plant in the Midlands rather than an isolated aerodrome tucked in the rural hinterland of south Surrey Shrouded in secrecy for most of its life Dunsfold has largely escaped the notice of the general public This volume shines a light on the remarkable work carried out there

*The Big Hop* David Rooney, 2025-06-03 The inspiring story of a pathbreaking 1919 flight and the courageous fliers who risked their lives to make aviation history In 1919 in Newfoundland four teams of aviators came from Britain to compete in the Big Hop an audacious race to be the first to fly nonstop across the Atlantic Ocean One pair of competitors was forced to abandon the journey halfway and two pairs never made it into the air Only one team after a death defying sixteen hour flight made it to Ireland Celebrated on both continents the transatlantic contest offered a surge of inspiration and a welcome distraction to a public reeling from the Great War and the influenza pandemic But the seven airmen who made the attempt were quickly forgotten their achievement overshadowed by the solo Atlantic flights of Charles

Lindbergh and Amelia Earhart years later In *The Big Hop* David Rooney grants the pioneering aviators of 1919 the spotlight they deserve From Harry Hawker the pilot who as a young man had watched Houdini fly over his native Australia to the engineer Ted Brown a US citizen who joined the Royal Flying Corps Rooney traces the lives of the unassuming men who performed extraordinary acts in the sky Mining evocative first person accounts and aviation archives Rooney also follows the participants journeys learning to fly on flimsy airplanes made of timber struts and varnished fabric surviving the bloodiest war that Europe had ever yet seen and battling faulty coolant systems severe storms and extreme fatigue while attempting the Atlantic Rooney transports readers to the world in which the great contest took place and traces the rise of aviation to its daredevil peak in the early decades of the twentieth century Recounting a deeply moving adventure *The Big Hop* explores why flights like these matter and why we take to the skies      [Operation Norfolk](#) Randy Wayne White,2015-12-01 Hawker launches an all out assault on the world s most powerful arms dealer For Con Ye Cwong the Vietnam War will never be over Head of the North Vietnamese secret police during the brutal conflict he has built himself an empire selling cocaine and heroin to the West Even after the war American servicemen remain his favorite targets He relishes nothing more than getting a soldier hooked and then upping the price until the junkie has no choice but to reveal military secrets for the next fix When he isn t pushing drugs or conning soldiers Cwong is an arms dealer supplier to the most dangerous terrorists in the Middle East He s one of the most powerful men in the world and James Hawker is going to take him down Hawker s one man war against terrorism has taken him around the globe but he won t know peace until Cwong is dead and buried To save the United States the nation s deadliest vigilante will take on the Viet Cong *Operation Norfolk* is the 11th book in the Hawker series but you may enjoy reading the series in any order      [The Big Smoke](#) Ben Schrader,2016-10-10 Unlike in Europe North America Australia and elsewhere urban history has never been sustained as a distinct field of scholarship in New Zealand This is surprising considering that since the early twentieth century most New Zealanders have lived in towns and cities 86 per cent were urban in 2014 Yet we know surprisingly little about these urban dwellers and the spaces in which they lived The pursuit of city life is one of the most important untold stories of New Zealand *The Big Smoke* is the first comprehensive history to tell this story presenting a dynamic and highly illustrated account of city life from 1840 to 1920 It explores such questions as what did cities look like and how did they change why were women especially drawn to live in cities in what ways did M ori experience and shape cities how far was the street a living room and stage for city life and why did New Zealand so quickly become a nation of townspeople At a time of national debate over housing and the growth of our cities Ben Schrader s superb new history reveals how our urban origins have shaped the people we are today Available in paperback and ebook formats from booksellers and using the Buy buttons on this page For more information on these purchase options please visit our Sales FAQs page or contact us      [Kenya Gazette](#) ,1983-04-22 The Kenya Gazette is an official publication of the government of the Republic of Kenya It contains notices of new legislation notices required to be
