If so, there are many things that you need to know. The most important thing to consider in this line of work is your own personal safety and the safety of your team. Second, you must know and understand the requirements that OSHA, U.S.D.O.T., EPA, and other local, state, and federal agencies expect you to strictly follow. There is a lot of new information in this 2nd edition that will especially help personnel out in the field.
