Hazlitt And The Creative Imagination:

Hazlitt and the Creative Imagination William P. Albrecht, 1967 Hazlitt and the Creative Imagination W. P. Albrecht, 1965-06 *Pushkin's Lyric Intelligence* Andrew Kahn, 2012-05-31 Pushkin's lyric intelligence is his capacity to transform philosophical and aesthetic ideas into poetry that questions the creative process This first major study of his lyrics reveals the links between Pushkin's conceptual vocabulary and his intellectual life and between his writing and the influences of French and English authors and movements

Romantic Genius and the Literary Magazine David Higgins, 2007-05-07 In early nineteenth century Britain there was unprecedented interest in the subject of genius as well as in the personalities and private lives of creative artists This was also a period in which literary magazines were powerful arbiters of taste helping to shape the ideological consciousness of their middle class readers *Romantic Genius and the Literary Magazine* considers how these magazines debated the nature of genius and how and why they constructed particular creative artists as geniuses Romantic writers often imagined genius to be a force that transcended the realms of politics and economics David Higgins however shows in this text that representations of genius played an important role in ideological and commercial conflicts within early nineteenth century literary culture Furthermore *Romantic Genius and the Literary Magazine* bridges the gap between Romantic and Victorian literary history by considering the ways in which Romanticism was understood and sometimes challenged by writers in the 1830s It not only discusses a wide range of canonical and non canonical authors but also examines the various structures in which these authors had to operate making it an interesting and important book for anyone working on Romantic literature

Knowledge and Indifference in English Romantic Prose Tim Milnes, 2003-02-27 This 2003 study sheds light on the way in which the English Romantics dealt with the basic problems of knowledge particularly as they inherited them from the philosopher David Hume Kant complained that the failure of philosophy in the eighteenth century to answer empirical scepticism had produced a culture of indifferentism Tim Milnes explores the way in which Romantic writers extended this epistemic indifference through their resistance to argumentation and finds that it exists in a perpetual state of tension with a compulsion to know This tension is most clearly evident in the prose writing of the period in works such as Wordsworth's Preface to *Lyrical Ballads* Hazlitt's *Essay on the Principles of Human Action* and Coleridge's *Biographia Literaria* Milnes argues that it is in their oscillation between knowledge and indifference that the Romantics prefigure the ambivalent negotiations of modern post analytic philosophy

Against Better Judgment Thomas Salem Manganaro, 2022-06-06 Winner 2022 Walker Cowen Memorial Prize *Robinson Crusoe* recognizes it is foolish to leave for the open seas nevertheless he boards the ship William Wordsworth of *The Prelude* sees the immense poetic task ahead of him but instead of beginning work he procrastinates by going for a walk Centering on this sort of intentionally irrational action originally defined as *akrasia* by the ancient Greeks and weakness of will in early Christian thought *Against Better Judgment* argues that the phenomenon takes on renewed importance in the long eighteenth

century In treating human minds and bodies as systems and machines Enlightenment philosophers did not account for actions that may be undermotivated contradictory or self betraying A number of authors from Daniel Defoe and Samuel Johnson to Jane Austen and John Keats however took up the phenomenon in inventive ways Thomas Manganaro traces how English novelists essayists and poets of the period sought to represent akrasia in ways philosophy cannot leading them to develop techniques and ideas distinctive to literary writing including new uses of irony interpretation and contradiction In attempting to give shape to the ways people knowingly and freely fail themselves these authors produced a new linguistic toolkit that distinguishes literature s epistemological advantages when it comes to writing about people **A Literary**
