Have you ever wondered how one day the media can assert that alcohol is bad for us and the next unashamedly run a story touting the benefits of daily alcohol consumption Or how a drug that is pulled off the market for causing heart attacks ever got approved in the first place How can average readers who aren't medical doctors or Ph D s in biochemistry tell what they should be paying attention to and what's well just more bullshit Ben Goldacre has made a point of exposing quack doctors and nutritionists bogus credentialing programs and biased scientific studies He has also taken the media to task for its willingness to throw facts and proof out the window But he's not here just to tell you what's wrong Goldacre is here to teach you how to evaluate placebo effects double blind studies and sample sizes so that you can recognize bad science when you see it You're about to feel a whole lot better      Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004
