## **Health Care In Developing Countries:**

**The Demand for Medical Care in Developing Countries** Avi Dor, J. van der Gaag, 1988 *Health and Health Care in Developing Countries* Peter Conrad, Eugene B. Gallagher, 2011 The volume covers a range of areas central Africa Nigeria Singapore Taiwan Indonesia Nepal China United Arab Emirates Oman and Mexico and a broad scope of topics from emergency care the AIDS epidemic and women's health care to public health programs and national health care policies Contributors address the central question of whether health systems in developing areas should emphasize the role of clinical medicine and individual physicians or community and preventive medical resources The major health problems faced by these societies inadequate sanitation infectious disease high infant child mortality and a lack of family planning indicate the greater need for health educators and public health workers despite many poor nations desire for Western doctors Other topics that are examined include the process of seeking medical aid the relationship between traditional and modern medicines medical education hospital care and communication between doctors and patients in developing countries and the relevance and application of sociology in Third World settings This volume seeks to draw attention to the significance of medical sociology for understanding Third World health problems and to show how examining developing societies may necessitate reframing or modifying some Western sociological notions

**Health Care Systems in Developing Countries in Asia** Christian Aspalter, Kenny Teguh Pribadi, Robin Gauld, 2017-07-14 For the last two decades major Asian economies have successfully kept their economic growth momentum going Now as these economies are entering a new phase of economic growth more attention is being paid to their respective states of social development especially the provision and the expansion of social security and in particular health care Academic study of the development of health care in developing countries has been for the most part neglected by the literature and in depth country case studies that are directly comparable on a one to one basis have not yet been conducted in a systematic manner This book volume also proposes a new stance on health policy and the health care policy paradigm one that focuses on saving lives from premature death as well as illness accidents misery and poverty based on the normative theory of developmental social policy DSP This groundbreaking book will therefore serve as a valuable reference volume for health policy social policy and public policy experts social development experts health and development economists health sociologists social workers government administrators as well as other medical and health professionals and academics

The underlying dynamics of health care systems in developing countries: Health policy, planning and the Impact of Social Economic Status (SES) on Health Disparities Mukasa Aziz Hawards, 2014-05-01 The impact of health policy and planning are tremendous remedies through which the health care systems derive their primary potentials in the health promotion ventures and interventions The programs designed in the health arena are tentatively equivocal and submissive to the implications influenced by the policy development criteria and much more open to the planning process Every day healthcare organizations are faced with crucial decisions about

improving their systems of care and a lack of critical information to guide them The research they need should be designed to help them provide better care to the patients in their organization effectively and efficiently Where does the Medicaid and the medical care strategies as pursued in the United States of America have their remedies through policy structure and together with the political culture associated to the system or perhaps how possible is it that Japan has the highest life expectancy so efficient The book is more of a fact file as results were generated by the health care research from suitable sectors and comparisons derived from the well off health care states mainly from the OECD fraternity as these bare differences due to policy even when their economic bases differ by small percentages This work should be helpful in directing and providing us with traceable landmarks to follow while seeking to avert the challenges that weaponize the communicable disease prevalence in the society for both the developed and the low developed states

**Managing the Quality of Health Care in Developing Countries** Willy De Geyndt, 1995 World Bank Technical Paper No 258 Quality of health care is a complex concept interwoven with value judgments about what constitutes good quality This lack of linearity partly explains the large number of definitions of the concept of quality and *Health Care Financing in Developing Countries* Dieter K. Zschock, 1982 **Health Care Systems in Developing Countries in Asia** Christian Aspalter, Kenny Teguh Pribadi, Robin Gauld, 2017-07-14 For the last two decades major Asian economies have successfully kept their economic growth momentum going Now as these economies are entering a new phase of economic growth more attention is being paid to their respective states of social development especially the provision and the expansion of social security and in particular health care Academic study of the development of health care in developing countries has been for the most part neglected by the literature and in depth country case studies that are directly comparable on a one to one basis have not yet been conducted in a systematic manner This book volume also proposes a new stance on health policy and the health care policy paradigm one that focuses on saving lives from premature death as well as illness accidents misery and poverty based on the normative theory of developmental social policy DSP This groundbreaking book will therefore serve as a valuable reference volume for health policy social policy and public policy experts social development experts health and development economists health sociologists social workers government administrators as well as other medical and health professionals and academics

*Financing Health Services in Developing Countries* John S. Akin, Nancy Birdsall, David M. De Ferranti, 1987-01-01 This report discusses several different approaches that support reforming health care services in developing countries For some time now health care services have been supported by government funds As demands for improving health care services continue to increase additional demands will be placed on governments to respond This however will not be easy Slow economic growth and record budget deficits in the 1980 s have forced reductions in public spending Alternative approaches to finance health care services are needed Such possible changes could involve decentralization of federal government involvement the promotion of nongovernment involvement the imposition of user fees and establishing health insurance

Finally the role of the Bank in pursuing new financing strategies is discussed **Innovations in Health Care Financing** George Schieber,1997-01-01 Spanish edition World Bank Technical Paper No 345S This report examines specific policies for achieving sustainable development of the mining industry in the countries of Latin America and the Caribbean The report highlights the importance of the mining sector to national economies of the region and discusses World Bank assistance in formulating policy Also available in English ISBN 0 8213 3816 1 Stock no 13816 *Long-term Care in Developing Countries* World Health Organization,WHO Collaborating Centre for Health and Long-Term Care Policy and Research,2003 About long term care for chronically ill and disabled persons and the elderly *Health and the Developing World* John Bryant,2019-06-30 The provision of adequate health care for an entire population is a task of critical importance and awesome difficulty particularly in underdeveloped nations This forthright book examines the aims of health care programs and suggests some realistic solutions to the obstacles that must be overcome Based on the work of a survey team sponsored by The Rockefeller Foundation the study analyzes health problems on a world scale whenever possible using examples from countries observed Dr Bryant advocates a systems analysis approach to national health planning pointing out the interrelationships of health planning and national development He gives special attention to manpower needs and develops the concept of a health team that would include paramedical as well as professional personnel He also proposes a plan for medical education that would be devoted to meeting a particular country's needs and related to its system of health care The author's findings and recommendations are essential reading for everyone concerned with the health and development of emerging countries Written in a clear compelling style the book is enhanced by illustrations by the young Thai artist Praphan Srisouta **Public Health in Developing Countries** Edlyne Eze Anugwom,Niyi Awofeso,2020 [Making Health Services More Accessible in Developing Countries](#) H. Uchimura,2009-09-16 Health is increasingly a critical concern in the context of development This book examines the function of health systems particularly the key factors finance human resources pharmaceuticals public facilities and stresses the importance of improving access to health services in developing countries [Health Care Systems in Developing and Transition Countries](#) Diana Pinto Masís,Peter C. Smith,2009 Health policy is a central preoccupation of many if not all developing countries This book presents a selection of ten studies that illustrate the powerful tool that carefully conducted research can offer policy makers seeking to address common health policy issues The studies included in this book illustrate the major gains to patients and citizens that can accrue from research efforts stimulating research capacity in developing countries Although many of the challenges confronting health systems are universal it is often the case that research results derived from developing countries can be misleading when applied to the low or middle income settings This insightful book will be a valuable research tool for academics researchers and policy makers in economics and health Publisher's description **Equity and Healthcare Reform in Developing Economies** Songül Çınaroğlu,2020-10-29 Ensuring equity in healthcare is the main concern of health policymakers in order to provide a

sustainable health system This concern is more prominent in developing countries due to the scarcity of resources This book provides a comprehensive analysis and discussion on the distributive pattern of out of pocket pharmaceutical expenditures under the health reforms in Turkey and makes comparisons with pharmerging countries Turkey s health reforms began in 2003 to address shortcomings related to financial protection and to improve health outcomes and the quality of healthcare services The primary motivation was to ensure equity in the distribution of health resources and this transformation process led to profound changes in how these resources were used and in health financing in general However there is a lack of knowledge regarding the long term effect of health reforms on the distribution patterns of health expenditures and health service use This book offers a thorough equity analysis of the health financing system affected by this health transformation program Index and curve approaches are used in the equity analysis of pharmaceutical expenditures The book examines the long term effects of health system regulations on the health spending characteristics of households and improves the current understanding of equity in this context It includes extensive international comparisons of healthcare services across a range of developing countries and highlights the significance of ensuring equity for emerging economies The author explores the existing evidence as well as future research directions and provides policy and planning advice for health policymakers to contribute to establishing a more equal health system design Additionally the book will be of interest to scholars and professionals in the fields of health economics public health management and health financing

*Improving Health Service Delivery in Developing Countries* David H. Peters, 2009 Reliable information on how health service strategies affect the poor is in short supply In an attempt to redress the imbalance *Improving Health Service Delivery in Developing Countries* presents evidence on strategies for strengthening health service delivery based on systematic reviews of the literature quantitative and qualitative analyses of existing data and seven country case studies The authors also explore how changes in coverage of different health services affect each other on the national level Finally the authors explain why setting international targets for health services has been not been successful and offer an alternative approach based on a specific country s experience The book s findings are clear and hopeful There are many ways to improve health services Measuring change and using information to guide decisions and inform stakeholders are critically important for successful implementation Asking difficult questions using information intelligently and involving key stakeholders and institutions are central to the learning and doing practices that underlie successful health service delivery
