Eddies Monster:

Eddie's Monster Michael D. Abrams, 1996 Messy Eddie shoves all his junk into the corner of his room until one night the pile comes to life and refuses to give back any of his things

Sea Monsters Joseph Nigg, 2020-03-04 The mythic creature expert and author of *Phoenix* takes readers through a bestiary of sea monsters featured on the famous 16th century map Carta Marina. In the sixteenth century sea serpents, giant man eating lobsters and other monsters were thought to swim the waters of Northern Europe threatening seafarers who ventured too far from shore. Thankfully Scandinavian mariners had Olaus Magnus who in 1539 charted these fantastic marine animals in his influential map of the Nordic countries the Carta Marina. In *Sea Monsters* mythologist Joseph Nigg brings readers face to face with these creatures and other magnificent components of Magnus's map. Nearly two meters wide in total, the map's nine wood block panels comprise the largest and first realistic portrayal of the region. But in addition to its important geographic significance, Magnus's map goes beyond cartography to scenes both domestic and mystic. Close to shore, Magnus shows humans interacting with common sea life: boats struggling to stay afloat, merchants trading, children swimming, and fisherman pulling lines. But from the offshore deeps rise some of the most terrifying sea creatures imaginable like sea swine, whales as large as islands, and the Kraken. In this book, Nigg draws on Magnus's own text to further describe and illuminate these inventive scenes and to flesh out the stories of the monsters. *Sea Monsters* is a stunning tour of a world that still holds many secrets for us, land dwellers who will forever be fascinated by reports of giant squid and the real life creatures of the deep that have proven to be as bizarre and otherworldly as we have imagined for centuries. It is a gorgeous guide for enthusiasts of maps, monsters, and the mythic. A beautiful new exploration of the Carta Marina. **Wired**

The Iron Traitor Special Edition Julie Kagawa, 2022-06-21 In the real world, when you vanish into thin air for a week, people tend to notice. After his unexpected journey into the lands of the fey, Ethan Chase just wants to get back to normal. Well, as normal as you can be when you see faeries every day of your life. Suddenly, the former loner with the bad reputation has someone to try for: his girlfriend, Kenzie. Never mind that he's forbidden to see her again. But when your name is Ethan Chase and your sister is one of the most powerful faeries in the Nevernever, normal simply isn't to be. For Ethan's nephew, Keirran, is missing and may be on the verge of doing something unthinkable in the name of saving his own love. Something that will fracture the human and faery worlds forever and give rise to the dangerous fey known as the Forgotten. As Ethan's and Keirran's fates entwine and Keirran slips further into darkness, Ethan's next choice may decide the fate of them all.

Women and Other Monsters Jess Zimmerman, 2021-03-09 A fresh cultural analysis of female monsters from Greek mythology and an invitation for all women to reclaim these stories as inspiration for a more wild, more monstrous version of feminism. The folklore that has shaped our dominant culture teems with frightening female creatures. In our language, in our stories, many written by men, we underline the idea that women who step out of bounds, who are angry or greedy or ambitious, who are overtly sexual or not sexy enough, aren't just outside the

norm They're unnatural Monstrous But maybe the traits we've been told make us dangerous and undesirable are actually our greatest strengths Through fresh analysis of 11 female monsters including Medusa the Harpies the Furies and the Sphinx Jess Zimmerman takes us on an illuminating feminist journey through mythology She guides women and others to reexamine their relationships with traits like hunger anger ugliness and ambition teaching readers to embrace a new image of the female hero one that looks a lot like a monster with the agency and power to match Often women try to avoid the feeling of monstrosity of being grotesquely alien by tamping down those qualities that we're told fall outside the bounds of natural femininity But monsters also get to do what other female characters damsels love interests and even most heroines do not Monsters get to be complete unrestrained and larger than life Today women are becoming increasingly aware of the ways rules and socially constructed expectations have diminished us After seeing where compliance gets us harassed shut out and ruled by predators women have never been more ready to become repellent fearsome and ravenous **Ocean Currents**
