Lamb, 2020-09-03 Many current and ancient sources suggest that UFOs and extraterrestrial beings have been visiting the earth and interacting with humans for thousands of years If this is true monumental implications arise regarding the origin and evolution of humanity and the future of our planet This book discusses the highly controversial subject of alien contact and abduction recounting twenty five cases of close encounter The cases included have been selected from the files of psychotherapist Barbara Lamb who has been working with abductees since 1991 In her work with 560 individuals more than 1 800 regressions have revealed encounters with what appear to be non human life forms Although extraterrestrial contact is difficult to prove scientifically the events described in this book are accurate in that they have been presented as they were described by the individuals who experienced them These are normal men and women living average responsible lives who have been subjected to extremely unusual events These individuals display such a compelling sincerity and marked emotional response to their strange experiences there can be no doubt they have experienced some kind of extraordinary event As a
