Building Schools, Making Doctors Katherine L. Carroll, 2022-05-31 In the late nineteenth century medical educators intent on transforming American physicians into scientifically trained elite professionals recognized the value of medical school design for their reform efforts Between 1893 and 1940 nearly every medical college in the country rebuilt or substantially renovated its facility In Building Schools Making Doctors Katherine Carroll reveals how the schools constructed during this fifty year period did more than passively house a remodeled system of medical training they actively participated in defining and promoting an innovative pedagogy modern science and the new physician Interdisciplinary and wide ranging her study moves architecture from the periphery of medical education to the center uncovering a network of medical educators architects and philanthropists who believed that the educational environment itself shaped how students learned and the type of physicians they became Carroll offers the first comprehensive study of the science and pedagogy formulated by the buildings the influence of the schools donors and architects the impact of the structures on the urban landscape and the local community and the facilities privileging of white men within the medical profession during this formative period for physicians and medical schools

Send Us a Lady Physician Ruth J. Abram, 1985 The irony of women s acceptance into the medical world and the unfortunate decline in their status at the beginning of the twentieth century is illustrated in this volume through words and pictures By focusing on the class of 1879 at the Woman s Medical College of Pennsylvania the authors of the various essays depict individual trials frustrations and victories of nineteenth century women physicians and we come to understand a vital aspect of our history and how it affects us all today

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of An American Dilemma Gunnar Myrdal s 1944 classic about race relations in the

USA An American Health Dilemma presents a comprehensive and groundbreaking history and social analysis of race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of the Hottentot Venus which illustrate larger themes An American Health Dilemma promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system *Departments of Labor, and Health, Education, and Welfare Appropriations for 1971* United States. Congress. House. Committee on Appropriations. Subcommittee on Departments of Labor, and Health, Education, and Welfare, and Related Agencies,1970

Psychology and Selfhood in the Segregated South Anne C. Rose,2009-06-15 In the American South at the turn of the twentieth century the legal segregation of the races and psychological sciences focused on selfhood emerged simultaneously The two developments presented conflicting views of human nature American psychiatry and psychology were optimistic about personality growth guided by the new mental sciences Segregation in contrast placed racial traits said to be natural and fixed at the forefront of identity In a society built on racial differences raising questions about human potential as psychology did was unsettling As Anne Rose lays out with sophistication and nuance the introduction of psychological thinking into the Jim Crow South produced neither a clear victory for racial equality nor a single minded defense of traditional ways Instead professionals of both races treated the mind set of segregation as a hazardous subject Psychology and Selfhood in the Segregated South examines the tensions stirred by mental science and restrained by southern custom Rose highlights the role of southern black intellectuals who embraced psychological theories as an instrument of reform their white counterparts who proved wary of examining the mind and northerners eager to change the South by means of science She argues that although psychology and psychiatry took root as academic disciplines all these practitioners were reluctant to turn the sciences of the mind to the subject of race relations History of Education: Studies of education systems Roy Lowe,2000 The Morehouse Mystique Marybeth Gasman,Louis W. Sullivan,2012-04 Tells the history of the Morehouse School of Medicine situating the school in the context of the history of medical education for Blacks and race relations throughout the country From publisher description *Departments of Labor and Health, Education, and Welfare appropriations for 1978* United States. Erased Anna Malaika Tubbs, 2025-05-20 INSTANT NEW YORK TIMES BESTSELLER USA TODAY NATIONAL BESTSELLER AN AMAZON BEST BOOK OF THE YEAR SO FAR 2025 The new book from the New York Times bestselling author of *The Three Mothers* In *Erased* Anna Malaika Tubbs recovers all that American patriarchy has tried to destroy Patriarchy has oppressed women and denied their contributions worldwide but the United States of America has its own unique gendered hierarchy Dr Anna Malaika Tubbs applies her signature blend of approachable yet rigorous analysis in this definitive and groundbreaking history of American patriarchy She proves that humanity in the United States is determined by gender in a limited and flawed binary that is also always tied to whiteness Tubbs shows how a fabricated hierarchy became so deeply ingrained over time that it now goes unnoticed along with everything it intentionally conceals From the founding fathers to the current Supreme Court justices from the treatment of enslaved women to the American maternal health crises from the exclusion of women in the Constitution to the continued lack of an Equal Rights Amendment Tubbs brings together academic research the stories of freedom fighters both past and present and her own experiences to reveal what is erased in the wake of American patriarchy The system has survived by hiding the tools that are necessary to dismantle it But Tubbs beautifully reminds us that those tools including our intuition courage ancient wisdom and power are still well within our reach *Erased* is the story of the United States from a new perspective one where the people who shaped this country who have been oppressed and whose contributions have been denied are at the center reminding us that we can restore what has been strategically kept from us Once again Dr Anna Malaika Tubbs has written a book that will be a touchstone for conversations on gender race and equity for years to come

The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America

Bargaining for Life Barbara Bates, 2015-07-27 Tuberculosis was the most common cause of death in the United States during the nineteenth century The lingering illness devastated the lives of patients and families and by the turn of the century fears of infectiousness compounded their anguish Historians have usually focused on the changing medical knowledge of tuberculosis or on the social campaigns to combat it Using a wide range of sources especially the extensive correspondence of a Philadelphia physician Lawrence F Flick in *Bargaining for Life* Barbara Bates documents the human story by chronicling how men and women attempted to cope with the illness get treatment earn their living and maintain social relationships

The Right Thing to Do, The Smart Thing to Do Association of Academic Health Centers, Clyde H. Evans, Association of American Medical Colleges, Lois Colburn, Institute of Medicine, Adrienne Y. Stith, Brian D. Smedley, 2001-09-29 The Symposium on Diversity in the Health Professions in Honor of Herbert W Nickens M D was

convened in March 2001 to provide a forum for health policymakers health professions educators education policymakers researchers and others to address three significant and contradictory challenges the continued under representation of African Americans Hispanics and Native Americans in health professions the growth of these populations in the United States and subsequent pressure to address their health care needs and the recent policy legislative and legal challenges to affirmative action that may limit access for underrepresented minority students to health professions training The symposium summary along with a collection of papers presented are to help stimulate further discussion and action toward addressing these challenges The Right Thing to Do The Smart Thing to Do Enhancing Diversity in Health Professions illustrates how the health care industry and health care professions are fighting to retain the public's confidence so that the U S health care system can continue to be the world's best *Deluxe Jim Crow* Karen Kruse Thomas, 2011 Thomas provides a detailed history of federal health policy as it was applied to the U S South in the mid twentieth century a period when the region was described as the number one health problem in the nation In particular she focuses on how reformers early emphasis on across the board regional uplift was eclipsed by efforts to desegregate medical facilities and address racial disparities in the health care system Provided by publisher **An American Health Dilemma: Race, medicine, and health care in the United States 1900-2000** W. Michael Byrd, Linda A. Clayton, 2000 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality **Bibliography of the History of Medicine**, 1984 Poor People's Medicine Jonathan Engel, 2006-02-22 DIVA national and state by state history of public health options for the American poor div African American Doctors of World War I W. Douglas Fisher, Joann H. Buckley, 2015-11-27 In World War I 104 African American doctors joined the United States Army to care for the 40 000 men of the 92nd and 93rd Divisions the Army's only black combat units The infantry regiments of the 93rd arrived first and were turned over to the French to fill gaps in their decimated lines The 92nd Division came later and fought alongside other American units Some of those doctors rose to prominence others died young or later succumbed to the economic and social challenges of the times Beginning with their assignment to the Medical Officers Training Camp Colored the only one in U S history this book covers the early years education and war experiences of these physicians as well as their careers in the black communities of early 20th century America
