Education And The Urban Community Schools And The Crisis Of The Cities:

Education and the Urban Community Maurie Hillson, Francesco Cordasco, Francis P. Purcell, 1982 Education and the City Gerald Grace, 2013-06-17 City schools especially those attended by working class and ethnic minority pupils are the catalysts of many significant issues in educational debate and policy making They bring into sharp focus questions to do with class gender and race relations in education concepts of equality of opportunity and of social justice and controversies about the wider political economic and social context of mass schooling America Western Europe and Australia have all taken a keen interest in the problems of urban schooling The contributors to this collection of original essays all share a concern about these problems although they approach them from a wide range of theoretical and ideological positions Gerald Grace and his contributors criticise the current limitations of urban education as a field of study and they present a foundation for a more historically located and critically informed inquiry into problems conflicts and contradictions in urban schooling Part I presents contributions on theories of the urban Part II focuses upon the history of urban education both in Britain and the USA Part III discusses contemporary policy and practice with essays relating to education in inner city London and in New York City This book was first published in 1984 *Research in Education* ,1968 **Resources in Education** ,1998 City Schools and City Politics John Portz, Lana Stein, Robin R. Jones, 1999 An explanation of why some US cities are better at educational reform than others It relates education to politics showing how the whole village can be mobilized to better educate tomorrow's citizens It is based on an 11 city study of civic capacity and urban education **Minority Students** Meyer Weinberg, 1977 **City Schools** Diane Ravitch, Joseph P. Viteritti, 2003-05-01 How the story of NYC's schools contain lessons for other cities City Schools brings together a distinguished group of researchers and educators for an in depth look at the nation's largest school system Topics covered include the changing demographics of city schools the impending teacher shortage reading instruction special education bilingual education school governance charter schools choice school finance reform and the role of teacher unions City Schools also provides fresh and fascinating perspectives on Catholic schools Jewish day schools and historically black independent schools Diane Ravitch Joseph P Viteritti and their coauthors explore pedagogical institutional and policy issues in an urban school system whose challenges are those of American urban education writ large The authors conclude that we know a lot more about how to provide effective educational services for a diverse population of urban school children than performance data would suggest Contributors Dale Ballou University of Massachusetts Amherst Stephan F Brumberg Brooklyn College Mary Beth Celio University of Washington Gail Foster Toussaint Institute Michael Heise Case Western University Clara Hemphill Public Education Association Paul T Hill University of Washington William G Howell Harvard University Pearl Rock Kane Columbia University Frank J Macchiarola Saint Francis College Melissa Marschall University of South Carolina Thomas Nechyba Duke University Paul E Peterson Harvard University Christine Roch Georgia State University Christine H Rossell Boston University Marvin Schick Avi Chai

Stern argues that the post Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity segregated schools gave rise to segregated communities which in turn created structural inequality in housing that impeded desegregation's capacity to promote racial justice By taking a long view of the interplay between education race and urban change Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process A vital and accessible history *Race and Education in New Orleans* provides a comprehensive look at the ways the New Orleans school system shaped the city's racial and urban landscapes *Readers Advisory Service* ,1974 *Hearings* United States.
