Educational Justice Michael S. Merry, 2019-12-20 2020 Finalist for Book of the Year Award North American Society of Social and Political Philosophy NASSP This book examines the philosophical motivational and practical challenges of education theory policy and practice in the twenty first century There is a loud and persistent drum beat of support for schools for citizenship for diversity and inclusion and increasingly for labor market readiness with very little critical attention to the assumptions underlying these agendas let alone to their many internal contradictions Merry does not neglect the historical comparative international context so essential to better understanding where we are as well as what is attainable in terms of educational justice He argues that we must constructively critique some of our most cherished beliefs about education if we are to save the hope of real justice from the rhetoric of imagined justice
