Education For Occupational Therapy In Health Care Strategies For The New Millennium:

Education for Occupational Therapy in Health Care Patricia Crist, Marjorie Scaffa, 2012-12-06 Learn the best new approaches from the world's leading OT educators. This timely book presents the most effective innovative approaches to teaching the next generation of occupational therapists and occupational therapy assistants. Examining both fieldwork and classroom programs, *Occupational Therapy in Health Care* presents tested state-of-the-art programs from leaders in the field. Its practical approaches focus on vital issues of teaching including professional collaboration, measuring learning outcomes, emerging trends in the field, and student development. Its practical approaches focus on vital issues of teaching and fieldwork education: interactive reasoning, collaborative learning, the influence of learning styles, student group leadership in fieldwork, developing research competencies, understanding disability in context, establishing community partnerships, academic leadership, environmental scanning regarding emerging issues. *Best Practices in Occupational Therapy Education* Patricia Crist, Marjorie Scaffa, 2012-11-12 Take your OT educational skills to the next level. *Best Practices in Occupational Therapy Education* is a must-have resource that showcases successful methods and practices in occupational therapy education. This unique book provides the information that can help you improve your skills to become an even more effective contemporary occupational therapy educator. Edited by Patricia Crist and Marjorie E. Scaffa, who previously collaborated on *Education for Occupational Therapy in Health Care: Strategies for the New Millennium*, *Best Practices in Occupational Therapy Education* highlights OT training methods proven effective by top OT educators. The book examines the effects of level II fieldwork on clinical reasoning in occupational therapy and on the professional development of fieldwork students in terms of occupational adaptation, clinical reasoning, and client-centeredness. It also shows how to promote professional reflection through problem-based learning, evaluations, and activities; how OT students' personality types affect the teaching and learning strategies that work best with them; and how to integrate evidence-based practice into students' academic and fieldwork experiences. This results-oriented text examines important concepts and approaches in teaching occupational therapy, such as Web-based supports for occupational therapy students during level II fieldwork, ways to facilitate creative thinking and memory, motivate students, and promote positive learning outcomes using evaluation activities in problem-based learning to help students develop professional reflection skills, customizing your instructional delivery methods to the specific needs of your students, balancing tradition with innovation, education specifically aimed at community-based practice, the benefits of online learning, methods for developing cultural awareness, cultural sensitivity, and active listening skills. The teaching approaches in *Best Practices in Occupational Therapy Education* are clear and concrete and include outcomes that support each thesis or learning objective. This analysis of best practices in occupational therapy education is an essential tool for educators that you'll refer to again and again. **Innovations in Allied Health Fieldwork Education**, 2010-01-01 This book presents a wide-ranging international overview of innovations in fieldwork education in three allied health disciplines. It provides theoretical

foundations and evaluations of implementation and outcomes of a range of approaches used in fieldwork education The various chapters identify new models locations and modes of delivery and teaching and learning strategies for fieldwork education They also point to emerging possibilities for fieldwork education for the future This book identifies that there is a developing evidence base for innovation in fieldwork education and there is a need for the practice of educational evaluation and enhancement to become habitual and ongoing

The Scholarship of Practice Patricia Crist, Gary Kielhofner, 2013-05-13

Integrate the freshest research with clinical practice Occupational therapy OT practitioners often lack the fundamental skills to conduct or effectively use research illustrating a disturbing gap between the advancement of theoretical concepts and the extent to which concepts are actually applied The Scholarship of Practice Academic Practice Collaborations for Promoting Occupational Therapy closes this gap by presenting a conceptual framework that integrates theory and research with clinical practice Leaders in the field provide insightful thought provoking ideas and strategies to promote research and facilitate effective new concepts and theories to hands on practitioners The Scholarship of Practice is a model that blends education with practice dynamically applying theoretical principles of occupational therapy learned in the classroom to their actual clinical practice This framework is a planned focused practice relevant way to educate students build a tradition of independent scholarship consult with community based organizations and contribute to best occupational therapy practice Case studies show how partnerships and collaborative efforts can foster and apply important advances and rehabilitative strategies within communities Examples of faculty practitioner partnering at Duquesne University and the approach to scholarship at the University of Illinois are clearly discussed This cutting edge compilation of ideas and research is extensively referenced and filled with useful diagrams and tables The Scholarship of Practice Academic Practice Collaborations for Promoting Occupational Therapy discusses evidence based scholarship participatory action research single case study designs approaches that provide scientific evidence supporting OT services how theory models or frames of reference are modified as a result of practice demands or expectations best practices in education continuum of care services the New Doors Model that provides occupation based services while providing new opportunities for occupational therapists the Practice Scholar Program at Duquesne University the Concerns Report Method research on the outcomes of practice that support improved services creative fieldwork education that engages students in the scholarship of practice and more The Scholarship of Practice Academic Practice Collaborations for Promoting Occupational Therapy makes important enlightening reading for occupational therapists OT educators and scholars and graduate students preparing for advanced roles in OT
