Education And Social Inquiry:

Education and Social Inquiry Allan C. Ornstein, 1978 *Mixed Methods in Social Inquiry* Jennifer C.

Greene, 2007-10-26 This is an excellent addition to the literature of integrated methodology. The author has skillfully integrated diverse ways of thinking about mixed methods into a comprehensive and meaningful framework. By providing detailed examples, she makes it easy for both the students and the practitioners to understand the intricate details and complexities of doing mixed methods research. On the other hand, by comparing contrasting and bridging multiple perspectives about mixed methods, she has made this book very relevant and useful to seasoned scholars of mixed methodology. Abbas Tashakkori, Frost Professor and coordinator educational research and evaluation methodology, Department of Educational and Psychological Studies, Florida International University, founding coeditor, *Journal of Mixed Methods Research*.

Learning Power Jeannie Oakes, John Rogers, 2006-04-24 In cities across the nation, low-income African American and Latino parents hope their children's education will bring a better life. But their schools typically are overcrowded, ill equipped, and shamefully understaffed. This work offers a radical approach to school reform that stresses grassroots public activism. **Learning Power** Jeannie Oakes, John Rogers, 2006-04-24 In cities across the nation, low-income African American and Latino parents hope that their children's education will bring a better life. But their schools typically are overcrowded, ill equipped, and shamefully understaffed. Unless things change dramatically, more than half the students will never graduate, and many will face a life of poverty wage work. *Learning Power* documents a radical approach to school reform that includes grassroots public activism informed by social inquiry as the best way to realize Brown v Board of Education's promise of education on equal terms. Activist young people, teachers, parents, and community organizations working to improve schools in our nation's poorest neighborhoods. The voices, images, and actions of people who are organizing to fight for better schools. A comprehensive critique of the prevailing logic of American schooling and an alternative logic based on justice and participatory democracy. Here are the best arguments against those who want to give up on public schools in America. Read *Learning Power* for clear examples of how ordinary people can influence schooling through their organizing and social critique. *Transforming Social Inquiry, Transforming Social Action* Francine T.

Sherman, William R. Torbert, 2012-12-06 John F. Kerry, United States Senator. If we are to reinvigorate and reinforce civic participation in this country at a time when our society is increasingly fragmented and highly technologically based, we must find a way to unite distinct communities such as universities, regional and non-profit organizations, and families. We must find ways to link academicians, students, teachers, and professionals with the reality of events and circumstances so that theories and ideas mightily pursued within the ivory tower are connected to social reality and useful. As the editors and contributors in this volume point out, the way to bridge theory-practice divide is not merely to interpret and report on circumstances of the real world but rather to deconstruct the separate and distinct communities that exist within our society and actively engage

other communities to realize a continuum of mutual understanding collaboration and action It is crucial to include our nation s public schools in this new approach of social inquiry and social action Improving and creating educational opportunity for all children in the United States has been an ongoing critical federal issue We know that when children achieve in school they have a much greater chance of living healthy productive adult lives that will benefit themselves and society and we know that increasing the base of stakeholders in children s education yields those positive results *Dewey and Goldman on Social Inquiry and Education* Christopher Aaron Anderson,2002 **Social Inquiry and Social Education** Frederick John Hunt,1975 **Inquiry-Based Practice in Social Studies Education** S.G.
