Maria Montessori: Her Thoughts and Her Beliefs for Today Vickie Jacob,2024-11-26 Maria Montessori along with many other enlightened thinkers of our time foresaw nothing less than the emergence of a new human culture In Maria Montessori s time hers was a futurist vision She puts forth her vision in her books such as The Formation of Man To Educate the Human Potential and Education for a New World Once we understand what is happening to education in the public schools we begin to wonder if this endless nightmare will have some light shed later on down the road not in just knowing about the Montessori schools but the bigger problem of the system that has been implemented today When the government attempts to impose a set of values it will always countermand some parents authority and often ignites a school war America was founded and built on God s principles and over a hundred fifty years experience shows that we cannot have a society that is both free and peaceful when legislators use schools to shape attitudes or control the content of students minds These wars are over whose values are being taught We re seeing a system that has too many cracks in it to be fixed Is God speaking to America Perhaps because our watchmen have gone to sleep About the Author A mother of three children and four grandchildren Vickie Jacobs is retired and spends much of her time with gardening ducks chickens and many dogs Raising children brought her into contact with educators and seeing a lot of changes since her own school days Vickie is very grateful to her husband and family who encouraged her with this work

and end points are the same the authors utilize their voice to invoke change and focus on solutions While each chapter takes on a life of its own the collective work embodies the purpose and challenge that today s leadership faces from a variety of perspectives Most importantly these concepts are intended to create dissonance and divergence a moving away from the typical and usual ways of doing to break down the status quo thinking that dominates the related fields of academia and schooling Do we accept the status quo and work to find our niche within the system Or do we hold ourselves and others accountable to truly honor the founding principles of freedom and equality for all as professed in the United States Constitution In *Un Democratic Acts New Departures for Dialogues in Society and Schools* the editors create a space in which imagining the possibility of a democratic and just society where all individuals are truly respected and treated fairly is the American way
