Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work. Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers, this condensed edition includes key contributors to philosophical thought. From 1600 to the present day, entries cover psychology, pedagogy, sociology, anthropology, education, theology, and political science before these disciplines came to be considered distinct from philosophy. Clear and accessible, each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. Featuring a new preface by the editor and a comprehensive introduction, The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty-first century thinkers including Martha Nussbaum and Patricia Churchland. With in-depth overviews of Waldo Emerson, Margaret Fuller, Noah Porter, Frederick Rauch, Benjamin Franklin, Thomas Paine, and Thomas Jefferson, this is an invaluable one-stop research volume to understanding leading figures in American thought and the development of American intellectual history.

*The Disputed Legacy of Sidney Hook* Gary Bullert, 2022-02-16. The Disputed Legacy of Sidney Hook examines the sixty-year career of one of the foremost public intellectuals in the United States. Sidney Hook's convictions were widely disseminated through books, academic journals, newspapers, articles, lectures, and several organizations that he founded. Hook's legacies include being a leading Marxist-Leninist scholar, his long-standing commitment to secular humanism, his legacy as a legendary polemicist, his cultural conservatism (if not neoconservatism) and his defense of democracy, and John Dewey's pragmatic and Cold War liberalism. Bullert concludes that Hook's core philosophy is best typified by his Deweyan pragmatism, vigilant anti-communism, and secular humanism.

Children, 1964. **New Perspectives in Philosophy of Education** David Lewin, Alexandre Guilherme, Morgan White, 2014-10-23. New Perspectives in Philosophy of Education seeks to build a bridge between philosophical reflection and socio-political action by developing a range of critical discussions in the areas of ethics, politics, and religion. This volume brings together established authorities and a new generation of scholars to ask whether philosophy of education can contribute to political and social discourse or whether it is destined to remain the marginal gadfly of mainstream ideology. The philosophy of education stands in danger of becoming a neglected field at precisely the moment we need to be able to reflect upon the increasingly apparent costs of the technocratic attitude to education. While many of the educational policy discussions of recent years seem far-reaching and radical, critical debate surrounding these initiatives remains largely at a populist level. New Perspectives in Philosophy of Education provides contemporary responses to philosophical issues that bear upon educational studies, policies, and practices contributing to the debate on the role of philosophy of education in an increasingly fractured intellectual milieu.

**Letters of Sidney Hook** Sidney Hook, Edward S. Shapiro, 2015-05-20. Sidney Hook (1902-1989) is known for his participation in the public debates about communism, the Soviet Union, and the Cold War. These letters, drawn from the Hook collection at the Hoover Institution, provide an insight into US intellectual and political history.
