practices *The New Institutionalism in Education* Heinz-Dieter Meyer, Brian Rowan, 2012-02-01 The New Institutionalism in Education brings together leading academics to explore the ongoing changes in K 12 and higher education in both the United States and abroad The contributors show that current educational trends including the increased globalization of education the growing emphasis on educational markets and school choice the rise of accountability systems and the persistent influence of business groups like textbook manufacturers and test makers on educational policy can best be understood when observed through an institutional lens Because schools and universities are organizations that are stabilized by deeply institutionalized rules they are subject to the enduring problem of substantive educational reform This book gives researchers and policy analysts conceptual tools and empirical assessments to gauge the possibilities for institutional reform and innovation **Historical Organization Studies** Mairi Maclean, Stewart R. Frank Ameruso, 2006-05 Choosing honor over love Preston Flynn leaves Forth Worth in an attempt to distance himself from Anna Archer the wife of the doctor who saved his life But San Antonio offers its own brand of trouble in the form of Kathleen Hannigan a tough out spoken cattle woman who ramrods her invalid father's ranch Kathleen considered all men weak and inept But after she meets Marshal Preston Flynn she realizes that he is an entirely different breed of man and resents every extraordinary quality he possesses from his flawless reputation to his handsome features and breathtaking blue eyes deciding that no man had the right to look the way he did They immediately locked horns

The Dark Side of Transformational Leadership Dennis Tourish, 2013-03-12 Most research into leadership has presented leaders as heroic charismatic and transformational visionaries The leader whether in business politics or any other field is the most important factor in determining whether organizations succeed or fail Indeed despite the fundamental mistakes which have arguably directly led to global economic recession it is often still taken for granted that transformational leadership is a good thing and that leaders should have much more power than followers to decide what needs to be done The Dark Side of Transformational Leadership confronts this orthodoxy by illustrating how such approaches can encourage narcissism megalomania and poor decision making on the part of leaders at great expense to those organizations they are there to serve Written in a lively and engaging style the book uses a number of case studies to illustrate the perils of transformational leadership from the Jonestown tragedy in 1978 when over 900 people were either murdered or committed suicide at the urging of their leader to an analysis of how banking executives tried to explain away their role in the 2008 financial crisis This provocative and hugely important book offers a rare critical perspective in the field of leadership studies

Concluding with a new approach that offers an alternative to the dominant transformational model *The Dark Side of Transformational Leadership* will be an invaluable text for academics interested in leadership students on leadership courses requiring a more critical perspective and anyone concerned with how people lead people and the lessons we can learn
