Philosophical Roots of Educational Psychology P. Karen Murphy, 2018-12-07 In the early years of this new millennium as the field of educational psychology continues to define its place within the educational enterprise it is imperative that those in the field reflect on the foundation of their domain This special issue can help keep the lessons of the past squarely in their minds and thus contribute to needed reflection and subsequent dialogue on the proper place of philosophy in the stream of educational psychology The contents are both diverse and well conceived beginning with a talk to educational psychologists that is suitably complemented by four articles that recognize certain compelling issues The depth and variety of those articles along with insightful commentaries are touchstones for educational psychologists interested in the roots of the domain and in the links between current trends and philosophical thought **Journal of Educational Psychology**, 1923

EDUCATIONAL PSYCHOLOGY Dr. A. Sivakumar, G. Thirumorthy, 2018-06-13 The prime method of inquiry in science is the experiment The key features are control over variables careful measurement and establishing cause and effect relationships An experiment is an investigation in which a hypothesis is scientifically tested In an experiment an independent variable the cause is manipulated and the dependent variable the effect is measured any extraneous variables are controlled An advantage is that experiments should be objective The views and opinions of the researcher should not affect the results of a study This is good as it makes the data more valid and less biased **Educational Objectives and the Teaching of**

Educational Psychology Edgar Stones, 2012 The purpose of this book is to promote discussion about educational objectives generally and objectives in the teaching of educational psychology in particular To this end Part 1 contains a review of the literature concerned with these two subjects and also reports on investigations into the views of British students teachers college staffs and educational psychologists on the question of the objectives of educational psychology in teacher preparation A comprehensive bibliography is provided A further important section of Part 1 proposes a method of systematizing teaching objectives and suggests a heuristic device for the generation of objectives at different levels of conceptual generality and complexity of learning An example of this model in the field of educational psychology is presented which illustrates the general approach to the generation of teaching objectives and proposes a specific approach to the

production of teaching objectives in educational psychology In Part 2 a selection of readings in the fields of objectives and educational psychology provides the reader with some of the key source material referred to in Part 1 As well as being a valuable and stimulating addition to the current debate on the specifying of educational objectives the arguments in this book about the role of educational psychology in teacher preparation raise some fundamental questions for those concerned with teacher education
