Educational Yearning Thomas Oldenski, Dennis Carlson, 2002 What room is there for a language of spirituality and the spirit in democratic forms of education This is the question posed in this collection of essays by a broad range of scholars working in education Beginning with the premise that postmodernism is associated with a re-spiritualization of culture the authors seek to explore ways in which this re spiritualization can be pushed in democratic rather than rightist or fundamentalist directions What they celebrate is diversity of progressive traditions and discourses of spirituality that educators and other cultural workers can draw upon to inform practice even as they trouble all essentialistic notions of spirituality Together these essays move democratic education onto a fundamentally new cultural terrain and they suggest that the metaphor of the journey of the spirit is one of the most enduring and potentially democratic ways of thinking about what it means to teach and to become educated Re-envisioning Education & Democracy Ruthanne Kurth-Schai, Charles R. Green, 2016-04-01 The future of public education and democracy is at risk Powerful forces are eroding commitment to public schools and weakening democratic resolve Yet even in deeply troubling times it is possible to broaden social imagination and empower effective advocacy for systemic progressive reform Re envisioning Education and Democracy explores challenges and opportunities for restructuring public education to establish and sustain more broadly inclusive deeply democratic and effectively transforming approaches to social inquiry and civic participation Re envisioning Education and Democracy adopts a non traditional format to extend social awareness and imagination Within each chapter one episode of an evolving strategic narrative traces the life cycle of a systemic reform initiative This is followed by an exploratory essay that draws from theory research criticism and practice to prompt consideration of focal issues Woven through each chapter is a poetically framed meditative stream informed by varied historical and cultural conceptions of oracles A developmental sequence of social learning strategies exploratory democratic practices accompanied by thematic bibliographic references are included to model democratic teaching and learning applicable in classroom and community settings **International** Handbook of Education for Spirituality, Care and Wellbeing Marian de Souza, LESLIE J. that reverberate in the work of early blues artists Using a predominantly cultural studies lens the author traces the emergence and evolution of the blues metaphor from pre slavery Africa's musical forms to the music of the slaves She then closely examines the emergence of the blues as a form of popular music in the 1920s analyzing popular culture representations of the blues artists historical artifacts recordings lyrics of early blues and other sources of data From this material certain themes emerge and are identified as part of the blues metaphor These themes and their evolution are traced through other forms of popular music including jazz country rhythm and blues rock folk and rap The author then uses these powerful themes to mold a conceptualization of a pedagogy of the blues a pedagogical approach that allows educators to hope to resist and to transcend the oppressive environments that exist in today's educational settings
