Following the earlier collection *Language Diversity Identities Genres Discourses* this book provides further insights into the multifaceted process of identity construction through language. The choice of dealing with the broad concept of diversity underlines the inclusiveness of this text which was conceived to analyse how identities are linguistically and socially construed, maintained and challenged in a vast array of sociolinguistic contexts. The choice of collecting papers concerning the thorny issue of language and diversity is grounded on the idea that individual identities are dynamic and socially negotiated in interaction and discourse with language choices being true acts of identity (Le Page and Tabouret Keller 1985) by means of which people's selves are performed and defined. To offer wide yet accurate descriptions of how identities are variously conveyed linguistically, this volume offers a varied approach to diversity by covering different fields of research from the investigation of ethnic minorities' identities to the socio-linguistic and cultural status of Scots to mention but two examples. The book consists of nine selected papers dealing with professional, cultural, ethnic and social identities, gender ideologies and national stereotypes built and negotiated in language practices and discourse. In particular, this work tackles a wide set of key topics: the construction and legitimation of ESOL teachers' identities in their community of practice; multidimensional research on Italian immigrants' distinctiveness; the negotiation of self in bilingual families; Scottish national belonging and attitudes towards the Scots language; the correlation between sexism and gender categories; and the development of a positive approach to diversity via enhanced critical awareness of culture-bound stereotypes.

David George Mullan,2016-12-05 Throughout the twentieth century Scottish literary studies was dominated by a critical consensus that critiqued contemporary anti Catholic by advancing a re reading of the Reformation This consensus understood that Scotland s rich medieval culture had been replaced with an anti aesthetic tyranny of life and letters As a result Scottish literature has consistently been defined in opposition to the Calvinism to which it frequently returns Yet as the essays in this collection show such a consensus appears increasingly untenable in light both of recent research and a more detailed survey of Scottish literature This collection launches a full scale reconsideration of the series of relationships between literature and reformation in early modern Scotland Previous scholarship in this area has tended to dismiss the literary value of the writing of the period largely as a reaction to its regular theological interests Instead the essays in this volume reinforce recent work that challenges the received scholarly consensus by taking these interests seriously This volume argues for the importance of this religiously orientated writing through the adoption of a series of interdisciplinary approaches Arranged chronologically the collection concentrates on major authors and texts while engaging with a number of contemporary critical issues and so highlighting for example writing by women in the period It addresses the concerns of historians and theologians who have routinely accepted the established reading of this period of literary history in Scotland and offers a radically new interpretation of the complex relationships between literature and religious reform in early modern Scotland *The Encyclopedia of Medieval Literature in Britain, 4 Volume Set* Sian Echard,Robert Rouse,2017-08-07 The Encyclopedia of Medieval Literature in Britain vereint erstmals wissenschaftliche Erkenntnisse zu Multilingualit t und Interkulturalit t im mittelalterlichen Britannien und bietet mehr als 600 fundierte Eintr ge zu Schl sselpersonen Zusammenh ngen und Einfl ssen in der Literatur vom f nften bis sechzehnten Jahrhundert Einzigartiger multilingualer interkultureller Ansatz und die neuesten wissenschaftlichen Erkenntnisse Das gesamte Mittelalter und die Bandbreite literarischer Sprachen werden abgedeckt ber 600 fundierte verst ndliche Eintr ge zu Schl sselpersonen Texten kritischen Debatten Methoden kulturellen Zusammenh ngen sowie verwandte Terminologie Repr sentiert die gesamte Literatur der Britischen Inseln einschlie lich Alt und Mittelenglisch das fr he Schottland die Anglonormannen Nordisch Latein und Franz sisch in Britannien die keltische Literatur in Wales Irland Schottland und Cornwall Beeindruckende chronologische Darstellung von der Invasion

The Mercat Anthology of Early Scottish Literature 1375-1707 R.D.S. Jack, P.A.T.

Rozendaal, 2008-10-30. This large-scale anthology of early Scottish Literature, now revised, has been designed as a teaching text for use by school and university students. Longer works are either presented complete (e.g. James I Kingis Quair) as long extracts with explanatory linking passages (e.g. Urquhart The Jewel) or by sections which sum up the main themes and concerns of the text (e.g. Barbour's Bruce Book I). There are full critical and linguistic introductions, brief biographical and bibliographical introductions for each author or sub-section. The texts have all been re-edited; every difficult word is glossed and full explanatory notes appear at the foot of each page. A substantial Appendix presents texts in Latin, Scots, English and Gaelic from the seventeenth century, demonstrating the vitality and interaction of these voices within the Scottish tradition. A noteworthy feature of the book is Professor Jack's Critical Introduction, 'Where Stands Scottish Literature Now'. This challenges many widely held assumptions about Scottish literature. In particular, it seeks to explore the reasons behind the strange neglect of the writers of the seventeenth century. Basing its argument on the texts of the Anthology as a whole, it seeks to re-define the accepted canon and suggests an alternative way of approaching Scottish literary history.
