An Introduction to Literature, Criticism and Theory Andrew Bennett, Nicholas Royle, 2014-07-10 Fresh original and compelling An Introduction to Literature Criticism and Theory is the essential guide to literary studies Starting at the beginning and concluding with the end the book covers topics that range from the familiar character narrative the author to the more unusual secrets pleasure ghosts Eschewing abstract isms Bennett and Royle successfully illuminate complex ideas by engaging directly with literary works so that a reading of Jane Eyre opens up ways of thinking about racial difference whilst Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literary laughter Each chapter ends with a narrative guide to further reading and the book also includes a glossary and bibliography The fourth edition has been revised to incorporate two timely new chapters on animals and the environment A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader s eyes to the exhilarating possibilities of both reading and studying literature

Modern North American Criticism and Theory Julian Wolfreys, 2006-04-21 Modern North American Criticism and Theory presents the reader with a comprehensive and critical introduction to the development and institutionalization of literary and cultural studies throughout the twentieth century and at the beginning of the twenty first Focusing on the growth and expansion of critical trends and methodologies with particular essays addressing key figures in their historical and cultural contexts the book offers a narrative of change transformation and the continuous quest for and affirmation of multiple cultural voices and identities From semiotics and the New Criticism to the identity politics of whiteness studies and the cultural study of masculinity this book provides an overview of literary and cultural study in North America as a history of questioning debate and exploration

A Modern Coleridge A. Timár, 2015-06-24 A Modern Coleridge shows the interrelatedness of the discourses of cultivation addiction and habit in Coleridge s poetry and prose and argues that these all revolve around the problematic nexus of a post Kantian idea of free will essential to Coleridge s eminently modern idea of the human

Writing London J. Wolfreys, 2007-07-12 This book stages a series of interventions and inventions of urban space between 1880 and 1930 in key literary texts of the period Making sharp distinctions between

modernity and modernism the volume reassesses the city as a series of singular sites irreducible to stable identities concluding with an extended reading of *The Waste Land* **A Reader's Guide to Contemporary Literary Theory** Raman Selden, Peter Widdowson, Peter Brooker, 2016-12-19 *A Reader's Guide to Contemporary Literary Theory* is a classic introduction to the complex yet crucial area of literary theory This book is known for its clear accessible style and its thorough logical approach guiding the reader through the essentials of literary theory It includes two new chapters *New Materialisms* which incorporates ecocriticism animal studies posthumanism and thing theory *21st Century and Future Developments* which includes technology digital humanities ethics and affect **Post-Marxism Versus Cultural Studies** Paul Bowman, 2007-04-18 *Post Marxism versus Cultural Studies* is an innovative exploration of the ethical and political significance of Cultural Studies and Post Marxist discourse theory It argues that although Cultural Studies and post Marxism tend to present themselves as distinct entities they actually share a project that of taking on the political Post Marxism presents itself as having a developed theory of political strategy while Cultural Studies has claimed to be both practical and political Bowman examines these intertwined overlapping controversial and contested claims and orientations by way of a deconstructive reading that is led by the question of intervention what is the intervention of post Marxism of Cultural Studies of each into the other and into other institutional and political contexts and scenes Through considerations of key aspects of Cultural Studies and cultural theory Post Marxism versus Cultural Studies argues that the very thing that is fundamental to both of these politicised app **The Routledge Companion to Historical Studies** Alun Munslow, 2006-02 With twenty nine new entries and updated existing ones this new edition provides a much needed critical introduction to the key issues historians and philosophers and their ideas and theories which have prompted the rethinking of history **Modernism, 1910-1945** Jane Goldman, 2017-04-29 This essential guide explores and celebrates the rise and development of modernist and avant garde literatures and theories in the period 1910 1945 from Imagism to the Apocalypse movement Jane Goldman charts transitions in writing reading performing and publishing practices and in international groupings and regroupings of writers and artists and interrogates the term Modernism which labels the era Goldman introduces students to the work of many canonical high modernist writers such as Ezra Pound T S Eliot W B Yeats James Joyce and Virginia Woolf and samples the work of other important modernist figures including Nathanael West John Rodker Aldous Huxley and the Harlem Renaissance poets **The Reception of Northrop Frye** , 2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question Who now reads Frye In *The Reception of Northrop Frye* Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye's reception in

front of us such as Hayden White's theory of emplotments applied to historical writing and Byron Almon's theory of musical narrative. The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is a very large and growing number, the growth being not incremental but exponential. Karl Marx and Contemporary Philosophy A. Chitty, M. McIvor, 2009-05-29 This collection brings together the latest work of some of the world's leading Marxist philosophers and new young researchers. Based upon work presented at meetings of the Marx and Philosophy Society, it offers a unique snapshot of the best current scholarship on the philosophical aspects and implications of Marx's thought. **Post-War British Literature and the "End of Empire"** Matthew Whittle, 2017-01-03 This book examines literary texts by British colonial servant and settler writers including Anthony Burgess, Graham Greene, William Golding, and Alan Sillitoe, who depicted the impact of decolonization in the newly independent colonies and at home in Britain. The end of the British Empire was one of the most significant and transformative events in twentieth-century history, marking the beginning of a new world order and having an indelible impact on British culture and society. Literary responses to this moment by those from within Britain offer an enlightening and often overlooked exploration of the influence of decolonization on received notions of race and class, while also prefiguring conceptions of multiculturalism. As Matthew Whittle argues in this sweeping study, these works not only view decolonization within its global context alongside the aftermath of the Second World War, the rise of America, and mass immigration, but often propose a solution to imperial decline through cultural renewal. **British Fiction of the 1990s** Nick Bentley, 2007-05-07 Presenting a fresh perspective on the diverse writings that appeared in British fiction during the 1990s, this book brings together leading academics in the field. **Black is Beautiful** Paul C. Taylor, 2016-05-23 *Black is Beautiful* identifies and explores the most significant philosophical issues that emerge from the aesthetic dimensions of black life, providing a long overdue synthesis and the first extended philosophical treatment of this crucial subject. The first extended philosophical treatment of an important subject that has been almost entirely neglected by philosophical aesthetics and philosophy of art. Takes an important step in assembling black aesthetics as an object of philosophical study. Unites two areas of scholarship for the first time: philosophical aesthetics and black cultural theory, dissolving the dilemma of either studying philosophy or studying black expressive culture. Brings a wide range of fields into conversation with one another, from visual culture studies and art history to analytic philosophy to musicology, producing mutually illuminating approaches that challenge some of the basic suppositions of each. Well balanced, up to date, and beautifully written, as well as inventive and insightful. Winner of The American Society of Aesthetics Outstanding Monograph Prize 2017. **The Legacy of Marxism** Matthew Johnson, 2012-06-28 Marx's influence is evident in a range of often incompatible and contradictory political movements and intellectual approaches. With a number of those movements now discredited by the experience of really existing socialism, and the academic left gravitating towards approaches which eschew authoritarian, essentialist, and ethnocentric elements of orthodox Marxism, the relevance of Marx has been called into

question Featuring chapters by Norman Geras Joseph Femia Alan Johnson Paul Bowman Ronaldo Munck Lawrence Wilde Mark Cowling Chengyi Peng Terrell Carver Oliver Harrison and Stuart Sim this book is an attempt to examine means by which the left can make real substantive and positive contributions to contemporary debate The collection examines such topics as the meaning of Marxism and pluralism within the left Marxism s scientific credentials i ek revolution democracy and cultural studies the politics of development the relationship between Marxism and global capitalism the global justice debate and Marx s rejection of moral discourse the analysis of crime and criminal justice Chinese society and constitutional diversity and the relationship between Marxism and post Marxism **Third Wave Feminism** S.
