Cases on Critical and Qualitative Perspectives in Online Higher Education Orleans, Myron, 2014-01-31 Online education continues to permeate mainstream teaching techniques in higher education settings

Teaching upper level classes in an online setting is having a major impact on education as a whole and is fundamentally altering global learning. Cases on Critical and Qualitative Perspectives in Online Higher Education offers a collection of informal personalized articles that identify, describe and examine actual experiential domains of online program and course production. Administrators, developers, instructors, staff, technical support and students in the field of online higher education will benefit from these case studies to reinforce and enhance their work. *Culturally Relevant Teaching* Beverly J. Klug, 2021-05-15 American Indian education is still faltering today and is not producing significant differences in results where school practices follow those for the dominant culture. Inroads have been made in some classrooms, schools where Culturally Responsive Relevant Pedagogy (CRP) is practiced. However, the drop out rates for American Indian indigenous populations are still extremely high in comparison to other ethnically diverse groups of students. Here are two factors that can make or break indigenous students' abilities to be resilient in the face of many educational negatives in their lives and enable them to continue on to graduate from high school and in many instances go on to complete undergraduate and graduate degrees in institutions of higher learning. This book is intended to be used for undergraduate and graduate students in education, anthropology, sociology and American Indian studies. It is also intended for use by educators working in areas with large concentrations of American Indian students, whether in rural, reservation, urban or states with large Native populations such as California and Oklahoma. It is a useful tool for policy makers and those involved in American Indian education at the national and state levels as well as organizations such as the National Council on American Indians, the U.S. Bureau of Indian Affairs and the National Indian Education Association. *The Court-Martial of Captain John Armstrong* Ellen Denning Smith, 2022-07-17 John Armstrong was destined to be a humble farmer on the Pennsylvania frontier until the American Revolution changed his life. Rising from private soldier to an officer in the Continental Army, he later served in the First American Regiment, forerunner of the U.S. Army, that was tasked to facilitate the settlement of the Northwest Territory. He endured the fledgling army's growing pains, was selected for a covert operation in Spanish territory to explore the Missouri River and fought Native Americans in two disastrous military campaigns. The army subsequently evolved into a successful fighting force despite its second in command's quest to destroy the career of its commander. Maj. Gen. Anthony Wayne, Armstrong became an unwitting pawn in a treacherous game crafted by Brig. Gen. James Wilkinson, of whom Theodore Roosevelt once wrote, "He had no conscience and no scruples." In all our history, there is no more despicable character. Rebuilding his life in Ohio and Indiana, Armstrong became a noted government official, militia officer, land speculator and pioneer. **Bulletin**, 1923 **Resources in Education**, 1996 **Standing Together** Beverly J. Klug, 2012-11-28 The majority of American Indian students attend public schools in the United States. However, education mandated for American Indian students since the 1800s has been primarily education for assimilation with the goal of eliminating American Indian cultures and languages. Indeed, extreme measures were taken to ensure Native students would

act white as a result of their involvement with Western education Today s educational mandates continue a hegemonic one size fits all approach to education This is in spite of evidence that these approaches have rarely worked for Native students and have been extremely detrimental to Native communities This book provides information about the importance of teaching American Indian students by bridging home and schools using students cultural capital as a springboard for academic success Culturally Responsive Pedagogy is explored from its earliest beginnings following the 1928 Meriam Report Successful education of Native students depends on all involved and respect for the voices of American Indians in calling for education that holds high expectations for native students and allows them to be grounded in their cultures and languages

Organizing Schools for Productive Learning Shlomo Sharan,Ivy Geok Chin Tan,2008-06-27 A major problem confronting schools is that many students are turned off from learning and are bored Boredom is destructive of learning The No Child Left Behind NCLB initiative of the US government 2001 stemmed from the claim accompanied by sharp debates pro and con that many schools in the United States fail to achieve basic educational objectives and that many schools are doing a poor job for a wide variety of reasons and surely not just because of student boredom Brigham Gustashaw Wiley Essex 2006 Goodman Shannon Goodman Sunderman Tracey Jr Kim Orfield 2004 The model of school organization and instruction presented here seeks to provide an effective plan for significant improvement in secondary school education one of whose central aims is to make students genuinely engaged in what they are learning The NCLB legislation emphasizes inter alia the need for school

improvement Without it one cannot reasonably anticipate improvement over current levels in student engagement in learning and in academic achievement The NCLB literature frequently employs the term school improvement to refer to the quality of the teachers such as their academic credentials instructional competence and their knowledge of subject matter Similarly school restructuring is said to include steps such as transforming the school into a charter school replacing the teaching staff or inviting a private company to administer the school The use of those terms in this work is distinctly different
