*Exceptional Children* Ronald L. Taylor,Les Sternberg,2012-12-06 *Exceptional Children Integrating Research and Teaching* provides a comprehensive introduction to the constantly changing area of special education The book is research based and its title reflects our opinion regarding the important link between research and classroom practice There is one feature of *Exceptional Children Integrating Research and Teaching* that warrants attention and perhaps justification it was written specifically to address the graduate student or sophisticated undergraduate student market As such the book is written at a higher level and with a greater concept density than typical introductory special education texts We feel that this type of book is very much needed and will be received favorably by the special education community There are also several unique features of *Exceptional Children Integrating Research and Teaching* that we feel will be quite valuable First we have emphasized the area of teaching practices and not simply included basic facts about definitions characteristics and causes Although some introductory texts include information about teaching considerations that area is not discussed as in depth as it is in our text We feel that it is important that readers not only understand the educational needs of exceptional children but also can identify the best educational practices to meet those needs

Lovett, Kathryn A.

Haring, 2012-12-06 The field of education is under pressure both external and internal to improve the services provided to all students In American society and elsewhere there is a concern that current educational practices fail to adequately prepare many students to be productive citizens There has been a call for educational services that are more responsive to the needs of students that use effective educational practices that involve parents and the local community and that adequately prepare teachers to assume more professional roles Over the last several decades special educators have addressed these and other critical issues as they relate to students with disabilities The knowledge gained from these endeavors can be useful in the reshaping of schools for all students those with disabilities and those without Indeed this information may be useful for services beyond school whether for young children or adults This volume has been written to address how people with disabilities can be effectively served in settings with their nondisabled peers Because many of the students who are not well served by current educational practices have similar needs as students with disabilities it is anticipated that some of this information may be useful in the discussion regarding the reshaping of educational systems It is also anticipated that the material presented will help in the design of more effective coordinated systems that serve people with disabilities throughout their lives **Foundations of Rehabilitation Counseling with Persons who are Blind Or Visually**
