Teaching Students with Mild and High-incidence Disabilities at the Secondary Level Edward James Sabornie, Laurie Ungerleider DeBettencourt, 2004 Focusing on the needs of secondary level learners with common disabilities a group often neglected by other books on the market *Teaching Students with Mild and High Incidence Disabilities at the Secondary Level* presents numerous research proven instructional methods and strategies It thoroughly examines the methods that are effective across the board as well as methods specific to particular challenges The authors address special education theory and relevant research in simple straightforward language that uses minimal jargon making concepts accessible and understandable to all Using case studies to show actual instruction as it happens this book gives readers a realistic portrait of today s diverse student population Coverage includes special education and adolescence instruction methods and current and future instructional issues An obvious resource for special education teachers this book is also an excellent guide for all educators as it provides information about assessment and curriculum planning

Learners with Mild Disabilities Eileen B. Raymond, 2000 Vignettes and case studies help to illustrate the strengths and needs of students with disabilities including their cognitive perceptual language academic learning and social emotional characteristics [Handbook of Research-Based Practices for Educating Students with Intellectual Disability](#) Karrie A. Shogren, 2016-10-14 The *Handbook of Research Based Practices for Educating Students with Intellectual Disability* provides an integrated transdisciplinary overview of research based practices for teaching students with intellectual disability This comprehensive volume emphasizes education across life stages from early intervention in schools through the transition to adulthood and highlights major educational and support needs of children and youth with intellectual disability The implications of history recent research and existing information are positioned to systematically advance new practices and explore promising possibilities in the field Driven by the collaboration of accomplished nationally recognized professionals of varied approaches and philosophies the book emphasizes practices that have been shown to be effective through multiple methodologies so as to help readers select interventions based on the evidence of their effectiveness

Learning Disabilities and Related Mild Disabilities Beverley Johns, Janet W. Lerner, 2009-08-06 The text that has set the standard for students working toward certification in special education has been substantially revised and updated to meet the needs of a new generation of teachers and students As reflected in the new title *Learning Disabilities and Related Mild Disabilities* now includes a cross categorical emphasis making it suitable to a broader number of courses Specifically the text now accommodates the increased number of courses aimed at teaching students with mild disabilities that are part of many states certification requirements Researchers are finding that many students with learning disabilities exhibit coexisting related disorders such as ADHD Asperger s Syndrome and nonverbal learning disabilities Preservice and in service classroom teachers who are increasingly responsible for teaching students with special needs within general education or inclusive classrooms will find this new edition especially helpful The text describes the characteristics of various mild disabilities and offers teaching strategies for general education

teachers special education teachers school psychologists and other related professionals All of the text s new coverage and special features were developed to align with the Cengage Learning Education Mission Statement Bridging the gap from preservice to practice to help new teachers be successful in their future classrooms and with their future students

Students with Mild Disabilities in General Education Settings Ada Vallecorsa,Laurie Ungerleider

DeBettencourt,Naomi Zigmond,2000 Especially for special educators that are being asked to teach special education in a general education setting this book teaches how to apply effective assessment instructional and evaluation strategies to that setting and shows how to develop and implement programs in collaboration with general education classroom teachers Emphasis on providing special education services within a general education setting Focuses on how special educators can go into mainstream environments and offer direct and indirect services to address the range of learning and behavioral problems that are typical to students with mild disabilities Shows how to develop and implement programs in collaboration with regular class teachers Ideal for special educators wanting to learn more about what his her role is likely to entail

Strategy Instruction for Middle and Secondary Students with Mild Disabilities Greg Conderman,Laura Hedin,Val Bresnahan,2013-02-14 This resource features evidence based strategies for teaching vocabulary reading written language math and science as well as study skills textbook skills and self regulation It provides informal assessments for every content area or skill addressed case studies that link assessment results IEP goals and learning strategies and application activities with questions and suggested responses **Mainstream or Special?** Josephine Jenkinson,2012-10-02 There remains some controversy about how best to meet the needs of pupils with special educational needs Should they be educated in mainstream schools alongside their peers or does this mean that specialist help and resources are denied to them This book explores in depth the ways in which this problem has been tackled in Australia the UK and Canada It looks at the major issues which have been raised and the types of provisions and resourcing which have been offered and then goes on to provide a vision of how future education provision might look for pupils with special educational needs *Curriculum Development for Students with Mild Disabilities* Carroll J. Jones,2010 Many teachers of students with mild disabilities experience difficulty writing IEPs and they lack a foundation in the regular education curriculum of academic skills and sequences associated with each grade level This book was designed to provide this foundation Presented in the form of scope and sequence charts that can be used as objectives for the State Frameworks goals and benchmarks this resource assists in preparing IEPs including the new process of identification of children with disabilities through their responses to intervention RTI An additional focus is on the impact of federal laws IDEA and NCLB on the curriculum and assessment in schools today The book has been reorganized into ten chapters including historical perspectives early childhood special education curricula oral expression curricula reading and listening curricula written expression curricula mathematics curricula educational technology curricula K 12 social and self competence curricula science curricula and evaluation reports

case studies Appendix The scope and sequence charts were modified to include current national education standards and benchmarks and the skills in each of the academic areas that require annual state assessment These charts will assist teachers in modifying the general education curriculum for students with mild disabilities and to write complete Individual Education Programs using age appropriate and developmentally appropriate teaching and assessment materials Chapter summaries included for review purposes also serve as selective and motivational reading With special education teachers in short supply and the demands on their time so great this book will provide a valuable resource for cutting the clutter and moving to the heart of the teaching process determining what skills students need to move effectively to the next level
