## **Education In A Post Welfare Society:**

Education in a Post-welfare Society Sally Tomlinson, 2005 This is the second edition of Education in a Post Welfare Society first published in 2001 which provided a critical overview of education policy since 1945 a period during which governments in the UK particularly in England moved from creating and sustaining a welfare state to promoting a post welfare society dominated by private enterprise and competitive markets The first edition took readers through a descriptive review of Acts reports and events in education 1945 2000 placing in context the avalanche of legislation and initiatives that have reformed education into a competitive enterprise in which young people learn to compete locally nationally and globally This edition continues the policy story up to 2005 and covers two terms of a New Labour government and their plans for a third term It also continues an examination of the relationship of education policy to social class race gender and the economy The book continues to demonstrate how a relatively decentralised education system became a system in which funding teaching and curriculum are centrally controlled and privatisation encouraged with education being narrowed to an economic function becoming a prop for global market economy rather than a pillar of welfare state Chronologies of education acts reports and initiatives are provided at the beginning of the first seven chapters major legislation is summarised and suggestions for further reading made Chapters on the middle classes and education the relationship of policy to race gender and disability and education and the economy follow The book is an invaluable resource for all those concerned with social policy and education including educational researchers professionals and politicians

**Education in a Post-welfare Society** Sally Tomlinson, 2001 A critical overview of education policy as government in Britain has moved from creating a welfare state to promoting a post welfare society dominated by private enterprise and competitive markets Concentrating particularly on the last 20 years the author places in context the avalanche of legislation and documentation that has reformed education into a competitive enterprise in which young people learn to compete She also demonstrates how a relatively decentralized education system became a system in which funding teaching and curriculum were centrally controlled and education narrowed to an economic function

**Education In A Post Welfare Society** Tomlinson, Sally, 2005-11-01 Providing a critical overview of education policy since 1945 this book includes chronologies of education acts reports and initiatives and summaries of major legislation
