Education Of Man:

The Education of Man Friedrich Fröbel, 1908 The Education of Man Johann Heinrich Pestalozzi, 2022-09-06

Timeless words of wisdom from the eighteenth century teacher who transformed the world of education with his groundbreaking ideas Johann Heinrich Pestalozzi rose to prominence during the Age of Enlightenment bringing the spirit of equal opportunity and respect for human personality into the classroom just as Thomas Jefferson imbued such virtues into the Declaration of Independence The foundation of Pestalozzi's educational philosophy rested on six principles the inner dignity of the individual the promise of potential in each child love as the basis of education as opposed to punishment his doctrine of Anschauung experience based learning appropriate action following Anschauung and an emphasis on repetition of said action This philosophical grounding influenced the great remaking of American education from 1830 to 1860 resulting in changes that have been felt through the centuries and remain relevant today The Education of Man gathers Pestalozzi's enduring thoughts on subjects as wide ranging as humanity teaching poverty justice truth and nature including such observations as People are led by custom and catchwords but facts they are wont to overlook The man who seeks to rule as a father before he has learned to love as a brother will never be a patriarch Sooner or later but of a certainty in the end Nature will take her toll for what men do against her Learning is not worth a penny when courage and joy are lost along the way The world grows poor in seeking to avoid poverty the man who strives for riches most earnestly is seen to be the poorest

On the Aesthetic Education of Man Friedrich Schiller, 2016-09-29 The artist is certainly the child of his age but all the worse for him if he is at the same time its pupil even worse its minion On the Aesthetic Education of Man is one of the most profound works of German philosophy in which Friedrich Schiller analyses politics revolution and the history of ideas to define the relationship between beauty and art Resulting from Schiller's deep disillusionment with the course of the French Revolution and expressed as a series of letters to a patron On the Aesthetic Education of Man is an impassioned attempt to drag mankind upwards from failure to greatness through placing ideas of aesthetic education at the heart of the human experience Our era has actually taken both wrong turnings and has fallen prey to coarseness on the one path lethargy and perversity on the other Having strayed along both paths it is beauty that can lead us back Schiller's arguments are as arresting challenging and inspiring today as when they were first written it is above all one of the great political statements from a time of revolutionary change
