*The People* Gerhard Hirschfeld, No society at any time under any conditions has provided enduring freedom security justice or self determination for all of its citizens The problems that confront the human species today are so large so complex and so urgent that an effective solution requires a framework that considers mankind as a whole The alternative according to Gerhard Hirschfeld is global disaster These observations provide both the motivation and the focus for *The People* a book that proposes a radical departure from traditional perceptions of people in society Hirschfeld argues that the basic relationship between people leaders and the middle class has always been fixed in human society and that the people in all societies and at all times have been subject to domination and exploitation To change this condition to assure that the
