S. Neill Richard Bailey, 2014-10-23 A S Neill was probably the most famous school teacher of the twentieth century His school Summerhill founded in 1921 attracted admiration and criticism from around the world and became an emblem of radical school reform and child centred education Neill claimed that he was a practical man but this book reveals that Summerhill expresses a comprehensive and distinctive set of ideas Whether he wanted to be or not Neill was an important educational thinker with a powerful influence on current educational approaches and philosophy A S Neill is the first book to examine this philosophy of education in detail It begins by showing how Neill s fascinating life story gives clues to the origin of his ideas and why they mattered so much to him It goes on to explore the main themes of his philosophy showing how they relate to the work of other great educational thinkers and how they are novel It also discusses whether there are lessons that could and should be learned by other schools from the original alternative free school of Summerhill **A Guide to Teaching Practice** Louis Cohen, Lawrence Manion, Keith Morrison, Dominic Wyse, 2010-06-17 A Guide to Teaching Practice is the major standard text for all students on initial teacher training courses in the UK Authoritative yet accessible it covers the important basic skills and issues that students need to consider during their practice such as planning classroom organization behaviour management and assessment The book s focus on the quality of teaching and learning and consideration of the latest regulations and guidelines ensures that it fits comfortably within TTA and OfSTED frameworks In addition comprehensively revised and fully updated this fifth edition features brand new chapters on the foundation stage legal issues learning and teaching and using ICT in the classroom as well as new material on numeracy literacy children s rights progress files and gifted and talented children This book is the most respected and widely used textbook for initial teacher training courses and will be an essential resource for any student teacher **Childhood, Philosophy and Open Society** Chi-Ming Lam, 2013-02-26 The purpose of this book is to develop a theory and practice of education from Karl Popper s non justificationist philosophy for promoting an open society Specifically the book is designed to develop an educational programme for fostering critical thinking in children particularly when they are involved in group discussion The study conducted an experiment to assess the effectiveness of Matthew Lipman s Philosophy for Children P4C programme in

promoting Hong Kong Chinese children's critical thinking Forty two Secondary 1 students volunteered for the experiment from whom 28 students were randomly selected and randomly assigned to two groups of 14 each one receiving P4C lessons and the other receiving English lessons The students who were taught P4C were found to perform better in the reasoning test than those who were not to be capable of discussing philosophical problems in a competent way and to have a very positive attitude towards doing philosophy in the classroom It was also found that P4C played a major role in developing the students critical thinking Considering that the construction of children by adults as incompetent in the sense of lacking reason maturity or independence reinforces the traditional structure of adult authority over children in society it runs counter to the goal of fostering critical thinking in children As a way to return justice to childhood and to effectively promote critical thinking in children the present study suggested reconstructing the concept of childhood highlighting the importance of establishing a coherent public policy on promotion of agency in children and also the importance of empowering them to participate actively in research legal and educational institutions

The Miseducation of Women James Tooley, 2003-07-21 Girls and boys are different So why do our schools insist on treating them as identical Could this misguided equality have anything to do with the increasing dissatisfaction among women that is revealed in survey after survey Do gender blind educational policies in fact work to women's disadvantage Bringing together many women's voices from Bridget Jones to Simone de Beauvoir Betty Friedan to Germaine Greer James Tooley challenges education's sacred cows demanding a radical rethinking of sexual politics and a fairer way forward for women The Miseducation of Women landed like a bombshell when it was published in England a few months ago but Mr Tooley's book replete with examples and anecdotes from the United States as well as Great Britain has equal application to the gender arguments on this side of the Atlantic
