Educational Leadership For Organisational Learning And Improved Student Outcomes:

Educational Leadership for Organisational Learning and Improved Student Outcomes William Mulford, Halia Silins, Kenneth A. Leithwood, 2006-04-11 The change in paradigm in our field is away from the great man or woman theory of leadership and the teacher in his or her own classroom to the development of learning communities which value differences and support critical reflection and encourage members to question challenge and debate teaching and learning issues How to achieve such learning communities is far from clear but we believe the areas of problem based learning PBL and organizational learning OL offer valuable clues The indications are that the successful educational restructuring agenda depends on teams of leaders whole staffs and school personnel working together i e OL linking evidence and practice in genuine collaboration i e PBL The book is unique in that it is both about and uses these two concepts **Educational Leadership for Organisational Learning and Improved Student Outcomes** William Mulford, Halia Silins, Kenneth A. Leithwood, 2014-01-15 International Handbook on the Preparation and Development of School Leaders Jacky Lumby, Gary Crow, Petros Pashiardis, 2009-05-07 Sponsored by the University Council of Educational Administration UCEA the British Educational Leadership Management and Administration Society BELMAS and the Commonwealth Council for Educational Administration and Management CCEAM this is the first book to provide a comprehensive and comparative review of what is known about the preparation and development of primary and secondary school leaders across the globe It describes current issues and debates and offers an assessment of where the field of leadership development is headed Key features include the following Global Focus this book provides the first comprehensive look at leadership preparation and development across the globe The chapter authors are distinguished scholars drawn from the US UK Europe Asia Canada Australia New Zealand and Africa Topical Geographical Focus provides researchers and policymakers with critical descriptions and assessments of both topical and geographical areas International Expertise chapter contributors are drawn from a variety of theoretical perspectives and represent all major continents *School Leadership Effects Revisited* Jaap Scheerens, 2012-01-05 This highly detailed study maps four decades of evolution of the concept of what constitutes effective school leadership It analyses the theoretical background to these developments and advocates the utility of thinking of a lean form of school leadership that is comparable to the concept of meta control A wide ranging survey of the empirical research literature on leadership effects includes the presentation of results from earlier meta analyses as well as a new meta analysis on some 25 studies carried out between 2005 and 2010 This survey demonstrates that older reviews and meta analyses were predominantly based on so called direct effect studies while more recent studies have tried to quantify the indirect effects of leadership mediated by other school variables While acknowledging the relatively small total effect of leadership on student outcomes the study does identify promising intermediary factors which stimulated by specific leadership behaviours impact on student performance The book ends by drawing out wider implications for educational practice and policy presented under headings

such as schools need leadership the toolkit of the school leader as a meta controller the special case of turning around failing schools and efficiency of school leadership In passing the authors make several suggestions about potentially fruitful next steps in researching the effects of school leadership
