Educational Research:

Methods in Educational Research Marguerite G. Lodico, Dean T. Spaulding, Katherine H. Voegtle, 2010-05-17 *Methods in Educational Research* *Methods in Educational Research* is designed to prepare students for the real world of educational research. It focuses on scientifically based methods, school accountability, and the professional demands of the twenty-first century, empowering researchers to take an active role in conducting research in their classrooms, districts, and the greater educational community. Like the first edition, this edition helps students, educators, and researchers develop a broad and deep understanding of research methodologies.
