Neudeutschland, German Catholic Students 1919-1939 R. Warloski, 2012-12-06. This study is of a modest segment of Germany's experience in the Weimar and Nazi periods. Its purpose is to throw light on one small part of that experience in order to add it to the larger puzzle. It is a study of Neudeutschland, a German Catholic youth organization for students. The membership of the Bund, as it was known, is primarily from the German secondary schools, those which are equivalent to the last two grades of grade school plus high school and two years of college in the United States. Two ancillary sections of the organization are the Jungvolk, the segment for the youngsters of pre-secondary school age, and the Alterenbund for those who have graduated and are pursuing careers in business, the university, and such. The organization was founded in 1919. Its course was relatively stormy until 1924, after which a short respite occurred in which an attempt was made at a unique synthesis. That synthesis can be summarized in the phrase: Catholic youth movement. Neudeutschland sought to catholicize the healthy aspects of the German youth movement which had grown after 1900 and which had swept through the secondary schools of Protestant northern Germany prior to the First World War. After the war, the impetus towards youth movement greatly enhanced by the shattering of the old restricting authority spread among the Catholic students in the secondary schools.

**Ökumene in Deutschland** Karl Heinz Voigt, 2015. English summary. In the authoritative literature on 19th and 20th century ecclesiastical history, ecumenism is largely overlooked, and where it is noticed, it is almost exclusively in an international context. Ecumenism in Germany only crops up occasionally and in a marginal context. The author of this volume closes this gap by examining the whole complexity of inner-German ecumenism by means of ecumenical hermeneutics of its history. He portrays all the ecumenical partners, thus overcoming the notion prevalent in society and even in some churches of bilateral ecumenism. His objective thereby is to capture the richness, diversity, and complexity of ecumenism in Germany, enhancing and pluralising its image so that within the different denominations and within German society as a whole, an awareness may grow of the full breadth of ecumenism. German description: In den Übersichtswerken zur Kirchengeschichte des 19. und 20. Jahrhunderts wird die Ökumene kaum wahrgenommen, und wenn dann fast nur im internationalen Kontext. Ökumene in Deutschland kommt nur sporadisch und am Rande vor. Diese Lücke schließt der Autor, indem er mit einer ökumenischen Hermeneutik der Geschichte die ganze Komplexität der innerdeutschen Ökumene in den Blick nimmt. Er stellt alle ökumenischen Partner dar und überwindet so das in der Gesellschaft teilweise auch in den Kirchen überlieferte Bild einer bilateralen Ökumene. Ziel ist den Reichtum, die Vielfalt und die Komplexität der Ökumene in Deutschland zu erfassen und so ihr Bild pluralisierend so zu bereichern, dass die gesamte ökumenische Breite auch bei uns anschaulich und bewusst wird, sowohl innerhalb der Konfessionen wie in der Gesellschaft.
