television in the United States presents the material in a manner the reader can grasp and enjoy and makes the book useful for the classroom teacher. Written for adaptation to individual teaching situations, the book is divided by subject matter into logical chapter divisions that can be assigned in the order appropriate for specific course students. Each chapter stands by itself, but the book is also an integrated whole. It is easy to understand at first reading by beginning radio television majors or nonmajor elective students alike. To give readers a complete picture of the field, subjects such as ethics, careers, and rivals to U.S. commercial radio and television are included.

Television Across Europe Jan Wieten, Graham Murdock, Peter Dahlgren, 2000-12-11. Combining institutional, textual, and audience analysis, this book introduces students to the factors which have shaped television's development in contemporary Europe and invites them to assess the issues that are at stake in its future. Divided into three parts, the book moves from the European broadcasting environment through current patterns and trends in programming and programme making to TV genres and issue-specific broadcasting. Incorporating a range of pedagogical devices, boxes of key facts, activities, and notes for further reading, *Television across Europe* offers an essential introductory guide to television in Western Europe.

Encyclopedia of Radio 3-Volume Set Christopher H. Sterling, 2004-03-01. Produced in association with the Museum of Broadcast Communications in Chicago, the *Encyclopedia of Radio* includes more than 600 entries covering major countries and regions of the world as well as specific programs and people, networks, and organizations, regulation and policies, audience research, and radio's technology. This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old, with essays that provide essential information on the subject as well as comment on the significance of the particular person, organization, or topic being examined.

Management of Electronic Media Alan B. Albarran, 1997. Driven by a variety of forces, the process of management for the electronic media has changed dramatically. The text presents a modern approach to management. Instead of addressing management of each of the media separately, the author asserts that a basic set of skills which apply to all media must first be learned before the specific needs of each industry are presented.
