the Novel in Nineteenth Century America revolves around the 1840 presidential election when according to campaign slogans candidates were what they ate Skillfully deploying the rhetoric of republican simplicity the belief that plain dress food and manners were signs of virtue in the young republic William Henry Harrison defeated Martin Van Buren by aligning the incumbent with the European luxuries of p t de foie gras and soupe la reine while maintaining that he survived on raw beef without salt The effectiveness of such claims reflected not only the continuing appeal of the frontier and the relatively primitive nature of American cooking but also a rhetorical struggle to define how eating habits and culinary practices fit into ideas of the American character From this crucial mid century debate the book s argument reaches back to examine the formation of the myth of republican simplicity in revolutionary America and forward to the popularization of cosmopolitan sophistication during the Gilded Age Drawing heavily on cookbooks domestic manuals travel writing and the popular press this historical framework structures a discussion of ways novelists use food to locate characters within their fictional worlds evoking or contesting deeply held social beliefs about gender class and race In addition to mid century novelists like Hawthorne Melville Stowe and Warner the book examines popular and canonical novels by writers as diverse as Lydia Maria Child James Fenimore Cooper Susanna Rowson Catharine Sedgwick Mark Twain Edith Wharton and Harriet Wilson Some of these authors also wrote domestic manuals and cookbooks In addition McWilliams draws on a wide range of such work by William Alcott Catharine Beecher Eliza Leslie Fannie Merrit Farmer Maria Parloa and others New York Magazine ,1982-04-05 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **New York Magazine** ,1987-02-23 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The History of Black Business in America** Juliet E. K. Walker,2009 In this wide ranging study Stephen Foster explores Puritanism in England and America from its roots in the Elizabethan era to the end of the seventeenth century Focusing on Puritanism as a cultural and political phenomenon as well as a religious movement Foster addresses parallel developments on both sides of the Atlantic and firmly embeds New England Puritanism within its English context He provides not only an elaborate critique of current interpretations of Puritan ideology but also an original and insightful portrayal of its dynamism According to Foster Puritanism represented a loose and incomplete alliance of progressive Protestants lay and clerical aristocratic and humble who never decided whether they were the vanguard or the remnant Indeed in Foster s

analysis changes in New England Puritanism after the first decades of settlement did not indicate secularization and decline but instead were part of a pattern of change conflict and accomodation that had begun in England He views the Puritans own claims of declension as partisan propositions in an internal controversy as old as the Puritan movement itself The result of these stresses and adaptations he argues was continued vitality in American Puritanism during the second half of the seventeenth century Foster draws insights from a broad range of souces in England and America including sermons diaries spiritual autobiographies and colony town and court records Moreover his presentation of the history of the English and American Puritan movements in tandem brings out the fatal flaws of the former as well as the modest but essential strengths of the latter

Immerse yourself in heartwarming tales of love and emotion with Explore Love with is touching creation, **Elegant Meals** .
