Foss, Cindy L. Griffin, 2020-08-20 Inviting Understanding A Portrait of Invitational Rhetoric is an authoritative reference work designed to provide a comprehensive overview of the theory of invitational rhetoric developed twenty five years ago by Sonja K Foss and Cindy L Griffin This theory challenges the

conventional conception of rhetoric as persuasion and defines rhetoric as an invitation to understanding as a means to create a relationship rooted in equality immanent value and self determination Rather than celebrating argumentation division and winning invitational rhetoric encourages rhetors to listen across differences to engage in dialogue and to try to understand positions different from their own Organized into the three categories of foundations extensions and applications Inviting Understanding is a compilation of published articles and new essays that explore and expand the theory The book provides readers with access to a wide range of resources about this revolutionary theory in areas such as community organizing social justice activism social media film graffiti institutional and team decision making communication and composition pedagogy and interview protocols

The St. Martin's Handbook Andrea A. Lunsford, 2011-02-11 Lunsford found that today's students write more than ever before and make rhetorically appropriate choices in texts they create outside the classroom This is the first handbook to help students build on the smart decisions they make as recreational writers in order to succeed in their academic and professional work It is an all in one teaching tool and reference that shows students how to write effectively for any purpose

The Comparative 1st Century Aramaic Bible in Plain English (8th ed.) & King James Version New Testament with Psalms and Proverbs Rev. David Bauscher, 2011-01-14 This is the 3rd comparative edition of the 8th edition translation of The Aramaic New Testament Aramaic was the language of Jesus and his countrymen of 1st century Israel in an English prose translation of The Peshitta New Testament displayed in two columns one has the King James Version on the left and the other has the translation of the Aramaic Peshitta on the right This translation is derived from the author's Aramaic English Interlinear New Testament Aramaic was used in Mel Gibson's film The Passion of the Christ to make the film as realistic and accurate as possible This New Testament will surprise and thrill the reader with its power and inspiration coming from the words of Yeshua Jesus in ancient Aramaic as He originally spoke them in a literal and readable English rendering 659 pages in 6x9 paperback The parallel Psalms and Proverbs of both versions are included after the NT

Teaching and Learning at a Distance Michael Simonson, Susan Zvacek, 2024-01-01 Teaching and Learning at a Distance is written for introductory distance education courses for preservice or in service teachers and for training programs that discuss teaching distant learners or managing distance education systems This text provides readers with the basic information needed to be knowledgeable distance educators and leaders of distance education programs The teacher or trainer who uses this book will be able to design courses evaluate programs and identify issues and trends affecting the field In this text we take the following themes The first theme is the definition of distance education Before we started writing the first edition of Teaching and Learning at a Distance we carefully reviewed the literature to determine the definition that would be at the foundation of our writing This definition is based on the work of Desmond Keegan but is unique to this book and has been adopted by the Association for Educational Communications and Technology and by the Encyclopedia Britannica The second theme of the book is the importance of research to the development of effective courses and programs offered at a distance The best practices presented in Teaching and Learning at a Distance are validated by scientific evidence Certainly there are rules of thumb but we have always attempted to only include recommendations that can be supported by research The third theme of Teaching and Learning at a Distance is derived from Richard Clark s famous quote published in the Review of Educational Research asserting that media are mere vehicles that do not directly influence achievement Clark s controversial work is discussed in the book but is also fundamental to the book s advocacy for distance education in other words we authors do not make the claim that education delivered at a distance is inherently better than other ways people learn Distance delivered instruction is not a magical approach that makes learners achieve more Equivalency theory is the fourth theme of the book Here we present the concept that instruction should be provided to learners that is equivalent rather than identical to what might be delivered in a traditional environment Equivalency theory helps the instructional designer approach the development of instruction for each learner without attempting to duplicate what happens in a face to face classroom The final theme for Teaching and Learning at a Distance is the idea that the book should be comprehensive that it should cover as much of the various ways instruction is made available to distant learners as is possible It can serve as a stand alone source of information

Resolved Robert Litan, 2020-10-06 Adopting a simple education reform to restore civil discourse and transform American society In this era of extreme political polarization it s tempting to believe nothing can be done to heal a nation that is so obviously divided and led by dysfunctional politicians But there is a relatively simple and powerful way to begin the healing and at the same time prepare the next generations of leaders for the rigorous demands of a constantly changing economy and society The solution offered by this intriguing book is for schools across the country to focus on developing in students the skills of successful debaters These are the skills so clearly lacking in contemporary society of listening and persuading through civil discourse backed by fact based evidence and reason Resolved explains how one simple educational reform can help address the nation s political divide and at the same time help ensure

that today's young people will actually enjoy learning and thus will have the necessary skills to lead productive and economically rewarding lives. The book offers practical ideas about a positive future for parents, educators, state legislators, business leaders, in fact anyone interested in how debate-centered education can fundamentally change the country for the better.
