There Is No God and He Is Always with You Brad Warner, 2013-05-17 Can you be an atheist and still believe in God Can you be a true believer and still doubt Can Zen give us a way past our constant fighting about God

Brad Warner was initially interested in Buddhism because he wanted to find God but Buddhism is usually thought of as godless In the three decades since Warner began studying Zen he has grappled with paradoxical questions about God and managed to come up with some answers In this fascinating search for a way beyond the usual arguments between fundamentalists and skeptics Warner offers a profoundly engaging and idiosyncratic take on the ineffable power of the ground of all being

Applied Mechanical Design Ammar Grous,2018-07-02 This book is the result of lessons tutorials and other laboratories dealing with applied mechanical design in the universities and colleges In the classical literature of the mechanical design there are quite a few books that deal directly and theory and case studies with their solutions All schools engineering colleges technical industrial and research laboratories and design offices serve design works However the books on the market remain tight in the sense that they are often works of mechanical constructions This is certainly beneficial to the ordinary user but the organizational part of the functional specification items is also indispensable

Mercator Nicholas Crane,2014-09-02 An enthralling biography of the man who created the first real map of the world and changed civilization Born at the dawn of the age of discovery Gerhard Mercator lived in an era of formidable intellectual and scientific advances At the center of these developments were the cartographers who painstakingly pieced together the evidence to create ever more accurate pictures of the planet Mercator was the greatest of all of them a poor farm boy who attended one of Europe s top universities was persecuted and imprisoned by the Inquisition but survived to coin the term atlas and to produce the so called projection for which he is known Devoutly religious yet gripped by Aristotelian science Mercator struggled to reconcile the two a conflict mirrored by the growing clash in Europe between humanism and the Church Mercator solved the dimensional riddle that had vexed cosmographers for so long How could the three dimensional globe be converted into a two dimensional map while retaining true compass bearings The projection revolutionized navigation and has become the most common worldview Nicholas Crane a fellow geographer has combined a keen eye for historical detail with a gift for vivid storytelling to produce a masterful biography of the man who mapped the planet
