**All Hands on Tech** Thomas H. Davenport, Ian Barkin, 2024-09-18 Supercharge your organization's capacity for innovation. The greatest untapped asset in an enterprise today is the ingenuity of its people. Dive into a future of work where technology empowers everyone to be a creator and builder with All Hands on Tech. The Citizen Revolution in Business Technology. This pivotal book offers a comprehensive look into the role of citizen developers, business domain experts who are driving IT-enabled innovation using technology previously reserved for professional technologists. Through case studies of citizens and citizen-enabled enterprises, the authors demonstrate how emerging technology bestows unprecedented power on these individuals and unprecedented value on the organizations that channel their efforts. They outline a transformative approach to citizen development that not only enhances companies' innovative capacity via the empowerment of domain experts but also minimizes risk and liberates IT departments to pursue more strategic initiatives. All Hands on Tech describes a revolution in work powered by technology becoming more human and humans becoming more comfortable with technology. This convergence provides a clear pathway for enterprises to leverage the on-the-ground experience and insight of all employees. The authors provide diverse examples of companies that have aligned the work of their citizen developers with wider organizational goals across citizen data science, automation, and development projects. These examples demonstrate why and how to commit to the citizen revolution in your organization. In the book, you'll discover the untapped potential of citizen developers to revolutionize business operations with technology democratization. Find a practical framework for integrating citizen development into a broader corporate digital and data strategy while controlling risk. Explore a forward-thinking approach to redefining the roles of all hands in an enterprise.
