The Ethics of Photojournalism in the Digital Age Miguel Franquet Santos Silva, Scott Eldridge II, 2020-01-24 Delving into the complexities of contemporary reportage this book draws from moral philosophy and histories of photojournalism to understand the emergence of this distinct practice and discuss its evolution in a digital era In arguing that the digitization of photography obliges us to radically challenge some of the traditional conceptions of press photography this book addresses the historic opposition between artistic and journalistic photographs showing and challenging how this has subtly inspired support for a forensic approach to photojournalism ethics The book situates this debate within questions of relativism over what is moral and normative debates over what is journalistic alongside technical debates as to what is possible to underpin a discussion of photojournalism as an ethical moral and societally important journalistic practice Including detailed comparative analyses of codes of ethics examination of controversial cases and a study of photojournalism ethics as applied in different newsrooms the book examines how ethical principles are applied by the global news media and explores the potential for constructive dialogue between different voices interested in pursuing the best version of photojournalism A targeted comprehensive and engaging book this is a valuable resource for academics researchers and students of photojournalism as well as philosophy communications and media studies more broadly

A Speaker's Guidebook with The Essential Guide to Rhetoric Dan O'Hair, Rob Stewart, Hannah Rubenstein, 2011-10-26 A Speaker's Guidebook is the best resource in the classroom on the job and in the community Praised for connecting with students who use and keep it year after year this tabbed comb bound text covers all the topics typically taught in the introductory course and is the easiest to use public speaking text available In every edition hundreds of instructors have helped us focus on the fundamental challenges of the public speaking classroom Improving on this tradition the fifth edition does even more to address these challenges with stronger coverage of overcoming speech anxiety organizing and outlining and more And as the realities of public speaking change so does A Speaker's Guidebook the new edition also focuses on presentational speaking in a digital world from finding credible sources online to delivering presentations in a variety of mediated formats From product description

Handbook of Research on Citizen Engagement and Public Participation in the Era of New Media Adria, Marco, Mao, Yuping, 2016-11-22 New media forums have created a unique opportunity for citizens to participate in a variety

of social and political contexts As new social technologies are being utilized in a variety of ways the public is able to interact more effectively in activities within their communities The Handbook of Research on Citizen Engagement and Public Participation in the Era of New Media addresses opportunities and challenges in the theory and practice of public involvement in social media Highlighting various communication modes and best practices being utilized in citizen involvement activities this book is a critical reference source for professionals consultants university teachers practitioners community organizers government administrators citizens and activists Environmental Communication Anabela Carvalho,Tarla Rai Peterson,2024-12-30 This handbook reviews extant research and offers critical summaries of key topics and issues in the field enriched by authoritative analyses of specific cases and examples It displays pluralism across a number of axes epistemological theoretical geographical cultural and thematic The first part offers historical routes through the international development of the field and explores the epistemological grounds of multiple strands of environmental communication studies In aiming to map the field broadly as well as stimulating new thinking the second part is organized along three core perspectives arenas voice and place It comprises chapters on various public spaces that are critical to the symbolic constitution of the environment and sheds light on a range of aspects and social agents that have received insufficient attention including research about and carried out in non Western countries Crucially at a time of profound environmental crisis the final part of this book discusses possibilities and constraints to social change and the potential contributions of environmental communication research to ways of understanding and responding to the challenge

Communication and Technology Lorenzo Cantoni,James A. Danowski,2015-08-31 The primary goal of the Communication and Technology volume 5th within the series Handbooks of Communication Science is to provide the reader with a comprehensive compilation of key scholarly literature identifying theoretical issues emerging concepts current research specialized methods and directions for future investigations The internet and web have become the backbone of many new communication technologies often transforming older communication media through digitization to make them compatible with the net Accordingly this volume focuses on internet web technologies The essays cover various infrastructure technologies ranging from different kinds of hard wired elements to a range of wireless technologies such as WiFi mobile telephony and satellite technologies Audio visual communication is discussed with reference to large format motion pictures medium sized television and video formats and the small screen mobile smartphone There is also coverage of audio only media such as radio music and voice telephony text media in such venues as online newspapers blogs discussion forums and mobile texting and multi media technologies such as games and virtual reality **Handbook of Global Media Ethics** Stephen J.A. Ward,2021-09-02 This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims For many scholars teachers and journalists the existing journalism

ethics e.g. existing codes of ethics is too parochial and national. It fails to provide adequate normative guidance for a media that is digital, global and practiced by professional and citizen. A global media ethics is being constructed to define what responsible public journalism means for a new global media era. Currently, scholars write texts and codes for global media, teach global media ethics, analyse how global issues should be covered and gather together at conferences, round tables and meetings. However, the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics. This handbook is a milestone in the field and a major contribution to media ethics.

BRICS Media Daya Kishan Thussu, Kaarle Nordenstreng, 2020-12-28. Bringing together distinguished scholars from BRICS nations and those with deep interest and knowledge of these emerging powers, this collection makes a significant intervention in the ongoing debates about comparative communication research and thus contributes to the further internationalization of media and communication studies. The unprecedented expansion of online media in the world's major non-Western nations exemplified by BRICS (Brazil, Russia, India, China and South Africa) is transforming global communication. Despite their differences and divergences on key policy issues, what unites these five nations representing more than 20 per cent of the global GDP is the scale and scope of change in their communication environment triggered by a multilingual mobile Internet. The resulting networked and digitized communication ecology has reoriented international media and communication flows. Evaluating the implications of globalization of BRICS media on the reshaping of international communication, the book frames this within the contexts of theory building on media and communication systems, soft power, discourses and communication practices including in cyberspace. Adopting a critical approach in analysing BRICS communication strategies and their effectiveness, the book assesses the role of the BRICS nations in reframing a global communication order for a post-American world. This critical volume of essays is ideal for students, teachers and researchers in journalism, media politics, sociology, international relations, area studies and cultural studies. Kruckeberg, 2017-01-12 This book is about media transparency and good faith attempts of honesty by both the sources and the gate keepers of news and other information that the mass media present as being unbiased Specifically this book provides a theoretical framework for understanding media transparency and its antithesis media opacity by analyzing extensive empirical data that the authors have collected from more than 60 countries throughout the world The practice of purposeful media opacity which exists to greater or lesser extents worldwide is a powerful hidden influencer of the ostensibly impartial media gate keepers whose publicly perceived role is to present news and other information based on these gate keepers perception of this information s truthfulness Empirical data that the authors have collected globally illustrate the extent of media opacity practices worldwide and note its pervasiveness in specific regions and countries The authors examine from multiple perspectives the complex question of whether media opacity should be categorically condemned as being universally inappropriate and unethical or whether it should be accepted or at least tolerated in some situations and environments **The Mediated City** Stephen Coleman, Nancy Thumim, Chris Birchall, Julie Firmstone, Giles Moss, Katy Parry, Judith Stamper, Jay G. Blumler, 2016-08-15

How does news circulate in a major post industrial city And how in turn are identities and differences formed and mediated through this circulation This seminal work is the first to offer an empirical examination and trace a city s pattern of news circulation Encompassing a comprehensive range of practices involved in producing circulating and consuming news and recognizing the various ways in which individuals and groups may find out follow and discuss local issues and events The Mediated City critiques thinking that takes the centrality of certain news media as an unquestioned starting point By doing so it opens up a discussion do we know what news is What types of media constitute it And why does it matter News Across Media Jakob Linnaa Jensen, Mette Mortensen, Jacob Ørmen, 2016-05-26

News production distribution and consumption are in rapidly changing due to the rise of new media This book examines how these processes become more and more interrelated through logics of dissemination sharing and co production These changes have the potential to affect the criteria of newsworthiness as well as existing power structures and relations within the fields of journalism and agenda setting The book discusses changing logics of production from citizens as well as journalists perspectives examines distribution and sharing as a link between but also an intrinsic part of production and consumption and addresses the changing logics of consumption Contributors place such changes in a historical perspective and outline challenges and future research agendas The Village Proposal Christopher Paslay, 2011-09-01 The Village Proposal is based on the African proverb that it takes a village to raise a child Part education commentary part memoir the book analyzes the theme of shared responsibility in public schools and evaluates the importance of sound teacher instruction the effectiveness of America s teacher colleges the need for strong school leaders and supports the need for strong parental

and community involvement the effectiveness of multiculturalism and social justice in closing the achievement gap the relevancy of education policy the impact of private business and politics on schools and how the media and technology are influencing education **The Palgrave Handbook of Media Misinformation** Karen Fowler-Watt, Julian

McDougall, 2022-12-12 The Palgrave Handbook of Media Misinformation provides a comprehensive and cutting edge resource on the critical debates surrounding fake news and misinformation online Spanning all continents and linking academic journalistic and educational communities this collection offers authoritative coverage of conspiracy theories the post Trump and Brexit landscape and the role of big tech in threats to democracy and free speech The collection moves through a diagnosis of misinformation and its impacts on democracy and civic societies the mainstreaming of conspiracy theory the impacts of misinformation on health and science and the increasing significance of data visualization Following these diagnoses the handbook moves to responses from two communities of practice the world of journalism and the field of media literacy **Hospital Epidemiology and Infection Control** C. Glen Mayhall, 2012-02-20 Thoroughly revised and

updated for its Fourth Edition this highly acclaimed volume is the most comprehensive reference on hospital epidemiology and infection control Written by over 150 leading experts this new edition examines every type of hospital acquired nosocomial infection and addresses every issue relating to surveillance prevention and control of these infections in patients and in healthcare workers This new edition features new or significantly increased coverage of emerging infectious diseases avian influenza governmental regulation of infection control and payment practices related to hospital acquired infections molecular epidemiology the increasing prevalence of community acquired MRSA in healthcare facilities system wide infection control provisions for healthcare systems hospital infection control issues following natural disasters and antimicrobial stewardship in reducing the development of antimicrobial resistant organisms **Cultural Meanings of**

News Daniel A. Berkowitz, 2011 What is news Why does news turn out like it does What factors influence the creation production and dissemination of news Cultural Meanings of News takes on these deceptively simple questions through an essential collection of seminal and contemporary studies by leaders in the fields of mass communication and media studies Similar in format and purpose to editor Dan Berkowitz's award winning Social Meanings of News this new volume represents a conceptual update a continuation of the discourse about the nature of news and how it comes to be moving ideas ahead from the earlier tradition of sociological approaches to the more pervasive cultural perspectives that inform understandings about news Cultural Meanings of News provides a carefully selected set of readings organized into thematic areas that each probe a dimension of the literature from sociological roots to cultural perspectives news as narrative and cultural text newswork as cultural ritual news as cultural myth news and its interpretive communities news as a source and reflection of collective memory toward the future of news research This text reader provides students and scholars with first hand exposure to cultural approaches to the study of news while also providing an organizing framework for understanding the

commonalties and differences between threads in the research The goals are to engage readers through guided immersion in the material
