Elements Of Shona Zezuru Dialect:

Elements of Shona (Zezuru Dialect) George Fortune, 1957 *Social Motivations for Codeswitching* Carol Myers-Scotton, 1993 Codeswitching may be broadly defined as the use of two or more linguistic varieties in the same conversation Using data from multilingual African context Carol Myers Scotton advances a theoretical argument which aims at a general explanation of the motivations underlying the phenomenon She treats codeswitching as a type of skilled performance not as the alternative strategy of a person who cannot carry on a conversation in the language in which it began Speakers exploit the socio psychological values associated with different linguistic varieties in a particular speech community by switching codes speakers negotiate a change in social distance between themselves and other participants in a conversation Switching between languages has much in common with making stylistic choices within the same language it is as if bilingual and multilingual speakers have an additional style at their command when they engage in codeswitching _

Languages and Education in Africa Birgit Brock-Utne, Ingse Skattum, 2009-05-11 The theme of this book cuts across disciplines Contributors to this volume are specialized in education and especially classroom research as well as in linguistics most being transdisciplinary themselves Around 65 sub Saharan languages figure in this volume as research objects as means of instruction in connection with teacher training language policy lexical development harmonization efforts information technology oral literature and deaf communities The co existence of these African languages with English French and Arabic is examined as well This wide range of languages and subjects builds on recent field work giving new empirical evidence from 17 countries Botswana Ethiopia Ghana Kenya Madagascar Malawi Mali Mozambique Niger Nigeria Senegal South Africa Swaziland Tanzania Uganda Zambia and Zimbabwe as well as to transnational matters like the harmonization of African transborder languages As the Editors a Norwegian social scientist and a Norwegian linguist both working in Africa have wanted to give room for African voices the majority of contributions to this volume come from Africa **A Resource Handbook for African Languages** , 1986 *Creole Languages and Linguistic Typology* Parth Bhatt, Tonjes

Veenstra, 2013-12-15 It is generally assumed that Creole languages form a separate category from the rest of the world s languages The papers in this volume written by internationally renowned scholars in the field of Creole studies seek to explore more deeply this commonly held assumption by comparing the linguistic properties of specific Creole languages to each other and also to non Creole languages Using a variety of methodological and analytical approaches the contributions to this volume show that the linguistic classification of Creole languages continues to be a topic of intense debate that requires the re examination of the premises of linguistic typology What is the linguistic motivation for considering that languages are related or unrelated How and why do common linguistic properties arise Are Creoles indeed exceptional This volume examines these questions and provides a strong foundation for continued research into the phonological morphological syntactic and semantic features found in Creole languages Most of these articles were previously published in the Journal of

Pidgin and Creole Languages 26 1 2011 The article by Jeff Good was previously published in the Journal of Pidgin and Creole Languages 27 1 2012 *The Shona and Ndebele of Southern Rhodesia* Hilda Kuper,A. J. B. Hughes,J. van Velsen,2017-02-03 Routledge is proud to be re issuing this landmark series in association with the International African Institute The series published between 1950 and 1977 brings together a wealth of previously un co ordinated material on the ethnic groupings and social conditions of African peoples Concise critical and for its time accurate the Ethnographic Survey contains sections as follows Physical Environment Linguistic Data Demography History Traditions of Origin Nomenclature Grouping Cultural Features Religion Witchcraft Birth Initiation Burial Social Political Organization Kinship Marriage Inheritance Slavery Land Tenure Warfare Justice Economy Trade Domestic Architecture Each of the 50 volumes will be available to buy individually and these are organized into regional sub groups East Central Africa North Eastern Africa Southern Africa West Central Africa Western Africa and Central Africa Belgian Congo The volumes are supplemented with maps available to view on routledge com or available as a pdf from the publishers *Features, Segmental Structure and Harmony Processes. Dihoff,2021-03-22 No detailed description available for Vol 1 Zimbabwe, a Country Study United States. Department of the Army,1983 **On Language** Joseph Harold Greenberg,Suzanne Kemmer,1990 This is a collection of 37 of the most important enduring and influential essays by one of the great linguists of this century gathered from a wide range of journals and books spanning four decades Language Matters in Contemporary Zimbabwe Collen Sabao,Esther Mavengano,2024-06-17 Speaking to a broader global preoccupation with the state of languages and language development this book considers issues surrounding the diverse languages linguistic communities and cultures of Zimbabwe Reflecting on Shona Xitsonga Sotho Xhosa Tjwao Nambya IsiNdebele Nyanja Tshivenda English and Braille the book uncovers both the internal and external factors that impact language structures language use and language ideologies across the country The book considers how colonial legacies and contemporary language domination and minoritisation have led to language endangerment It considers the fate of communities whose languages are marginalised and in the process poses questions on what can and should be done to preserve Zimbabwean languages The authors offerings range across subjects as diverse as music linguistic innovation education human rights literature language politics and language policy in order to build a rich and nuanced picture of language matters in the country Coming at a critical moment of increasing mobility migration cultural plurality and globalisation this book will be an important resource for researchers across African literature linguistics communication policy and politics **Vowel Epenthesis in Loanword Adaptation** Christian Uffmann,2012-02-14 While it is commonly assumed that languages epenthesize context free default vowels this book shows that in loanword adaptation several strategies are found which interact intricately Large loanword corpora in Shona Sranan Samoan and Kinyarwanda are analyzed statistically and the

patterns are modeled in a version of Optimality Theory which introduces constraints on autosegmental representations The focus of this book is on English loans in Shona providing an in depth empirical and formal analysis of epenthesis in this language The analysis of additional languages allows for solid typological generalizations In addition a diachronic study of epenthesis in Sranan provides insight into how insertion patterns develop historically In all languages analyzed default epenthesis exists alongside vowel harmony and spreading from adjacent consonants While different languages prefer different strategies these strategies are subject to the same set of constraints however In spreading feature markedness plays an important role alongside sonority We suggest universal markedness scales which combine with constraints on autosegmental configurations to model the patterns found in individual languages and at the same time to constrain the range of possible crosslinguistic variation *Paul's Ethics of Reconciliation in Dialogue with Ndebele and Shona Ethnic Cohesion* Gusha, Ishanesu Sextus, 2022-09-21 The tension between the Ndebele and Shona people dates back to the pre colonial era and this has been one of the major threats to Zimbabwe's peace The book proposes Paul's ethics of reconciliation in the Corinthian correspondence as inspiration for social cohesion between the Ndebele and Shona tribes The volume deploys Pauline key symbols Christ the Cross of Christ Ambassador New Creation and Baptism as epistemological lenses in promoting identity tags that go beyond ethnicity For these symbols to be effective the author proposes setting up of the Truth and Reconciliation Commission TRC refraining from using ethnic offensive language introduction of Ndebele and Shona languages in schools substituting ethnic provincial names with neutral ones substituting ethnic registration system of people with a neutral one and the devolution of power **Language Contact and Language Conflict** Unn Røyneland, 1997
