A Unicorn Dies Paul S. Fiddes,2019-09-30 Giles Questing an undergraduate student at the University of Oxford finds his life taking an

unexpected turn after the suspicious death of a PhD student a death the police believe to be suicide He determines to solve the mystery by following a trail of artworks that depict a unicorn Travelling to museums and galleries he gradually discovers the truth about whether the student has taken his own life or been murdered and who if anyone is guilty His quest immerses him in the world of the unicorn in medieval and Renaissance art and introduces him to the present day obsession with the unicorn in the media advertising and social networks All this enables him to crack the code of the unicorn that has been buried in the tradition of the Christian church for many years and to answer the questions he has about a death that deeply affects him personally and that finally threatens his own life

Myths and Legends of the Medieval World Paul

Watts,2025-02-05 No one can deny the enduring power of medieval myths and legends Tales of King Arthur Merlin Robin Hood Sir Lancelot magic dragons giants demons and the Holy Grail are as fascinating for us today as they have ever been However the stories we have inherited from our medieval forebears have often been transformed by the embellishments and additions of later generations In every century since the Middle Ages stories have been re imagined re told and sometimes radically changed to suit the audience of the day This book aims to transport the reader back to the age of the Plantagenets and re tell these stories as they would have been understood at the time It explores the stories in detail and looks at what they meant to people living then how they were told and why they were important Myths and Legends of the Medieval World provides a detailed account of medieval mythology in its original context It offers a window into a medieval mind set in which such things as angels demons visions magic holy relics and other supernatural entities were an accepted reality Explore some of the most puzzling and captivating mysteries of the Middle Ages What lay behind the legend of the Holy Grail How did people regard the perilous world of the medieval fairy How did the medieval world view witchcraft And what happened during the infamous trial of the Templars These are all questions that Myths and Legends of the Medieval World sets out to answer

William L. Rowe on Philosophy of Religion

William L. Rowe,Nick Trakakis,2017-05-15 William Rowe is one of the leading thinkers in contemporary philosophy of religion Although he is best known for his contributions to the problem of evil he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion He has for example written extensively on the existentialist theologian Paul Tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of God His work in these areas is distinguished by its clarity rigour originality and sensitivity towards the claims of his theistic opponents Indeed Rowe s work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s The present collection brings together for the first time Rowe s most significant contributions to the philosophy of religion This diverse but representative selection of Rowe s writings will provide students professional scholars as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich the problem of evil divine freedom arguments for the existence of God religious experience life after death and

religious pluralism Hunting the Faster than Light Tachyon, and Finding Three Unicorns and a Herd of Elephants Robert Ehrlich, 2022-05-18 In 1905 Albert Einstein declared speeds greater than light to be impossible This book describes the author's decades long search for the hypothetical subatomic particles known as tachyons that violate this principle This book is a scientific detective story The crime is speeding that is the possible breaking of the cosmic speed limit namely the speed of light as stipulated by Einstein This detective story is also a memoir written by a member of a band of tachyon hunters The author's pursuit of tachyons has been met with skepticism from most physicists who note correctly that no such superluminal particles have ever been surely observed and that there have been many false sightings Nevertheless considerable circumstantial evidence for tachyons has already been published and an ongoing experiment could decide the issue in the next few years This book is written for the general reader containing humor and eliminating jargon whenever possible and will also be of interest to scientists The hunt for the tachyon will fascinate all readers who approach the study of physics with curious and open minds Unicorns Kathryn Hinds, 2013-08-01 The unicorn is a symbol of purity Treat your readers to quotes from literary and historical sources abundant images and illustrations and a fascinating narrative about the history of the majestic unicorn Boundaries, Extents and Circulations Koen Vermeir, Jonathan Regier, 2016-09-14 This volume is an important re evaluation of space and spatiality in the late Renaissance and early modern period History of science has generally reduced sixteenth and seventeenth century space to a few canonical forms This volume gives a much needed antidote The contributing chapters examine the period's staggering richness of spatiality the geometrical geographical perceptual and elemental conceptualizations of space that abounded The goal is to begin to reconstruct the amalgam of spaces which co existed and cross fertilized in the period's many disciplines and visions of nature Our volume will be a valuable resource for historians of science philosophy and art and for cultural and literary theorists **America Magica (2nd edition)** Jorge Magasich-Airola, Jean-Marc de Beer, 2007-07-01 An enthralling account of the conflicting experiences of discovering the New World drawing upon the intriguing tales of early discovery and amazing illustrations of the day The authors invoke the unique exhilaration of exploration investigating the conflict between the ambitious idealism and harsh realities that have always characterized and torn the country After all did people not go to America in search of both the Garden of Eden and the tribes of the damned *Animal Skins and the Reading Self in Medieval Latin and French Bestiaries* Sarah Kay, 2017-02-24 Just like we do today people in medieval times struggled with the concept of human exceptionalism and the significance of other creatures Nowhere is this more apparent than in the medieval bestiary Sarah Kay's exploration of French and Latin bestiaries offers fresh insight into how this prominent genre challenged the boundary between its human readers and other animals Bestiaries present accounts of animals whose fantastic behaviors should be imitated or avoided depending on the given trait In a highly original argument Kay suggests that the association of beasts with books is here both literal and material as nearly all surviving bestiaries are copied on parchment made of animal skin which also resembles

human skin Using a rich array of examples she shows how the content and materiality of bestiaries are linked due to the continual references in the texts to the skins of other animals as well as the ways in which the pages themselves repeatedly and at times it would seem deliberately intervene in the reading process A vital contribution to animal studies and medieval manuscript studies this book sheds new light on the European bestiary and its profound power to shape readers own identities *Animals in the Middle Ages* Nona C. Flores, 2016-01-20 These interdisciplinary essays focus on animals as symbols ideas or images in medieval art and literature **Mothers, Fathers, and Others** Siri Hustvedt, 2022-11-08 In this essay collection in which feminist philosophy meets family memoir the novelist and scholar moves effortlessly between stories of her mother grandmother and daughter to connect mothers to the broader meanings of maternity in a culture shaped by misogyny and fantasies of paternal authority Full Circle Henry Cecil, 2008-11-28 A law professor suffers a knock on the head He continues to behave normally but delights his students by telling them crazy and convoluted stories The University authorities take action and he is locked away Then things change once again These stories written with Henry Cecil s true verve and wit will delight the reader
