Uncovering Jewish Creativity in Book III of the Sibylline Oracles Ashley Bacchi, 2020-04-28 In *Uncovering Jewish Creativity in Book III of the Sibylline oracles* Ashley L. Bacchi reclaims the importance of the Sibyl as a female voice of prophecy and reveals new layers of intertextual references that address political cultural and religious dialogue in second century Ptolemaic Egypt This investigation stands apart from prior examinations by reorienting the discussion around the desirability of the pseudonym to an issue of gender It questions the impact of identifying the author's message with a female prophetic figure and challenges the previous identification of paraphrased Greek oracles and their function within the text Verses previously seen as anomalous are transferred from the role of Greek subterfuge of Jewish identity to offering nuanced support of monotheistic themes

M. Lemos, 2010-03-31 In *Marriage Gifts and Social Change in Ancient Palestine* T M Lemos traces changes in the marriage customs of ancient Palestine over the course of several hundred years The most important of these changes was a shift in emphasis from bridewealth to dowry the latter of which clearly predominated in the Hellenistic and Roman periods Whereas previous scholarship has often attributed these shifts to the influence of foreign groups Lemos connects them instead with a transformation that occurred in Palestine's social structure during the very same period In the early Iron Age Israel was a kinship based society with a subsistence economy but as the centuries passed it became increasingly complex and developed marked divisions between rich and poor At the same time the importance of its kinship groups waned greatly Utilizing an interdisciplinary approach that draws heavily on anthropological research cultural theory archaeological evidence and historical critical methods Lemos posits that shifts in marriage customs were directly related to these wider social changes
